Boat Beacon
AIS Marine Navigat...
★★★★★ 102

OPEN

Boat Beacon is a phone app that transmits to AIS, if your boat does not already have AIS.

Ship Finder is a phone app that your family and friends may use to track your progress in the race.

The USCG requests that all boats are tracked during this race, and Swiftsure Race Trackers are not available this year. We request that each boat transmits to AIS this year, and encourage you to share Ship Finder with your family and friends.
