Save as a JPG and Return Via E-mail to the Ethics Chairperson. Use a separate word document if more space is needed.

Please describe your desired resolution. Please make every effort to be fair.

I understand that in order to preserve the integrity of the process confidentiality is imperative. I understand I have the ability to confide in RESA leadership or another stager for support regarding the concern at hand. However, I also understand the importance of handling those conversations in a mature and professional manner. I further agree that the decision the Ethics Committee is final, although I may not agree with the outcome. I agree to respect the process and trust that the process was conducted fairly and ethically. I understand that appealing the decision is not an option for either party.
