

Tree Removal and Defensible Space Contractors

This list is offered as a public service and Tahoe Donner Association does not specifically recommend or endorse any of the individuals or companies listed below. These names were obtained through personal contact, contractor request, etc. It is strongly recommended you check other sources for additional vendors. Make sure that whomever you choose has liability and, if necessary, workers compensation insurance.

In California, anyone who contracts to perform work on a project that is valued at \$500 or more for labor and materials must hold a current valid license from the Contractors State License Board. You can verify the license on-line at www.cslb.ca.gov or call 1-800-321-CSLB (2752). Unlicensed workers pose a risk to you and your financial security. They can expose you to significant financial harm in the event a worker is injured while on your property, if your property is damaged or if the work is incomplete and/or faulty.

The Contractors State License Board has stated for a contractor to do defensible space work they must either carry a C-27 (landscape contractor) license, a D-49 (tree service contractor) license or an A (general engineering contractor) license. The only exception is if someone holds a Timber Operators License (LTO) through CAL FIRE and a valid exemption form has been accepted by CAL FIRE for the property. Forms are available at: www.fire.ca.gov/resource_mgt/resource_mgt_forest_practice_harvestingforms.php. The form is: Removal of Fire Hazard Trees within 150 Feet of a Structure Exemption (12/08)

All phone numbers are area code 530 unless otherwise noted.

Name of Contractor	Phone	Type of service
A+ Defensible Clearing	587-6027	Tree service, Defensible Space work (any amount), yard waste hauling
