Help us to preserve our Armenian history, understand our community's identity, and let the world know that we've survived, we've thrived; **and we're still here.**

Did your Armenian ancestors tell you stories about their emigration journey, or about their lives in Armenia, or about the massacres of 1894-97 or the genocide of 1915?

How do you live your Armenian heritage today, or how has your family in the past? Are you involved with Armenian organizations? Does your extended family gather? Worship? Prepare a favorite meal? Share any stories or remembrances you wish to tell and /or photos you wish to share.

Do you have family photographs, diaries, letters, or other mementos? Please send photographs or scans as you're able, or contact us to schedule a photography / scan session to add your family materials to the AHARI digital archive.

Please be a part of this worthwhile initiative.
