

**Randy Rice:**

Randy was already a club icon when our family joined. That was when the club was at Kaydeross Park. Randy and the entire Rice family welcomed us warmly and were among the first of all the friends we have made there over the years. Randy as club historian was the perfect person for that position. His good nature and ability to tell a story were among his strengths. It was a tradition as part of every Commodore's Ball that Randy would bring us up to date on the club history past and present. It is something those of us fortunate enough to have been there for these will not forget. Randy was part of the properties committee and is a large part of the reason we have the beautiful property in Manning Cove. Randy's and the Rice family's contributions to SLSC are part of the foundation that makes our club as strong as it is today.
