

## **Exotic Animal Specialist (ABVP/ACZM/ ECZM) needed in Hong Kong!**

We are a progressive and busy 24-hour hospital (50% exotics, 50% small animals), with exceptional facilities: several endoscopes, laparoscopic surgery, CT, cryosurgery, IDEXX lab suite/Abaxis machine, IM3 dental x-rays, dedicated hot and cool wards and exotic ICU units. Each vet works with a team of at least two dedicated Vet Nurses for translation and clinical work.

In partnership with the Jockey Club College of Veterinary Medicine and Life Sciences at City University, Hong Kong, we will provide core Exotic rotations for final year veterinary students.

The successful candidate along with our current GPCert (ExAP) and Cert AVP(Zoomed) Advanced Practitioner exotic vets will be providing clinical services to the more than 7000 exotic cases we see per year.

Hong Kong is one of the safest cities in the world to live. Even during the pandemic we had very few infections and recently no new cases have been reported. Life feels relatively normal here, with most companies and restaurants open for business. Expats are once again able to enjoy everything Hong Kong has to offer!

We are close to the sea, mountains and country parks, yet only a short drive to Central district, packed with skyscrapers and shopping malls. The subway system is one of the best in the world. Outside the bustling city centre, there are stunning hiking trails with lush vegetation, country parks, beaches and several outlying islands waiting to be explored. Hong Kong boasts an amazing food culture, with countless options varying from refined Michelin star restaurants to charming local street food stalls.
