

# Annotated Suggested Reading List\*

## American College of Zoological Medicine Examination

\*Updated January 2017

The following list is provided to help guide veterinarians planning to study for the ACZM boards. It is not a comprehensive listing of all available material, but rather a guide to facilitate finding information in areas where the candidate does not have extensive experience. Examination questions will be taken primarily from the listed reading materials as noted, however some questions may come from sources not listed. Examination questions based upon journal articles will emphasize current literature of the last five years, although older references may also be included. It is recommended that candidates work with their mentor to prioritize study material within the references suggested.

### Core Reading Material

May be used for Day 1 and Day 2 exam material for all disciplines.

### Core Journals

Journal of Zoo and Wildlife Medicine

Journal of Wildlife Diseases - ***Excluding short communications and letters***

Journal of Avian Medicine and Surgery

Journal of Herpetological Medicine and Surgery

Journal of the American Veterinary Medical Association - ***Including AVMA guidelines***

American Journal of Veterinary Research
