Highest finish of last race breaks tie.

DNS = Did not start - the most starters for that days races plus one.

We had a good turnout even though the winds and weather were threatening, the forecast was 15+ winds with possible storms moving in towards the end of the day. As it turned out the wind was at 1 to 2mph for the first race and filled in nicely for the second race, storms never materialized.

We were forced to cancel the third race because of unsafe conditions.

**Congratulations Sadie Creemer winner of our first Novice Regatta!**
