0.6 - ICC (#1707/#11794)  
0 - Ins

**Instructor:** Marty Duran, CFM

**Cost:** \$50 - FFMA individual members  
\$150 - non-FFMA members

## Course Description

This course is designed to offer exposure to some of the more complicated nuances of Substantial Improvement/Substantial Damage requirements found in the National Flood Insurance Program, the Florida Building Code, and local Flood Damage Prevention Ordinances. To open the workshop, and to prepare the attendees for a more in-depth discussion of the issues, a basic foundation of the NFIP, its structure, administration, and benefits will be presented. Additionally, basic components of the concept of SI/SD will be presented. The course will then move directly into FEMA's Substantial Improvement/ Substantial Damage Desk Reference and discussion will be drawn directly from the Manual.

Completion of the course will give local officials (and others) with a better understanding of:

- Substantial Improvement/Substantial Damage
- how to solicit data
- how to process applications
- apply the standards of Substantial Improvement/Substantial Damage
- how to interact with State & FEMA with regard to any compliance issues that may arise

**Seating is limited to the first 30 attendees.**  
Fewer than 10 attendees will result in course cancellation.
