

2019 Rookie FF of the Year: Steven Patrick Bryant

Advanced Firefighter Steven Bryant spent most of his time in his recruit academy injured.

However, that did not stop him from wanting to participate in every part of the training. He continuously pushed through the pain to meet the objectives set forth for him. At no time did any instructor ever hear him complain about his circumstances.

As a result, in December, 2018, he received his FF 1 certifications & on Dec. 29th, 2018, he began his first day on duty, working as a fulltime Firefighter. When asked about his most notable & important emergency call he had been on, he stated “All of them.” He believes in helping folks.

That hard work has continued since hitting the floor. Even though he is relatively new in the fire service, he continues to hold those around him accountable for their actions.

He pushes everyone at the station to do their job and do it the right way.
