

The Bulldog Angel Network

# The Bulldog Angel Network

## **Mission**

Provide Bulldog Angel Network members the opportunity to make a good return on their investments while providing seed round funding to early stage companies that are majority owned by Mississippi State students, faculty, or alumni. We try to help the companies that we invest in succeed by providing mentoring and advisory roles and using the experience of the network members to help with advice. (Each member can contribute as much or as little time as they want to the latter part of the mission and if you don't have the time, we understand.)

## **Professionally Managed**

Full time management of the Bulldog Angel Network by an experienced executive and entrepreneur who has raised angel and venture capital funds for startups in the past and generated successful exits. Provides a strong focus on making this network successful and in minimizing the time requirements to participate. The goal is to build this network to over 200 members.

## **No Travel Required**

Deal pitches are online and Network meetings are by phone.

## **Geographically Dispersed Solution**

Members will live all over the United States, so deal pitches are handled by online tools. All committees and activity that is required in the Network will be done remotely. Travel is not required.

## **Strong Web Tools To Make This Easy For Members**

One login gives you access to member contact information, a document management system, forums for discussing deals with other members, links to useful angel information, a way to submit potential deals and numerous other benefits.

## **Angel Capital Association (ACA) Member**

We generally follow ACA guidelines on angel investing.

## **Mississippi State Entrepreneurship Center**

We work closely with the MSU Entrepreneurship Center to use and perfect their Venture Catalyst™ process to take companies from an idea to a well thought out strategy with a strongly researched business plan for angel funding and ongoing mentoring and advisory.

## **One Fee Covers Everything**

One time \$400 annual fee and no fees to participate in events.

## **Four Or More Deal Opportunities Per Year**

Four opportunities to invest per year is the minimum target. We will attempt to have more than this but we also only want to bring quality opportunities to the network. We look for early stage deals that are scalable companies in the United States. Typical total deal sizes will be \$50K and up.
