

Hello -

Thank you for your recent inquiry on our Tahawus Club website. We are a small private Adirondack recreational club, founded in 1877. Currently, we have just over 50 members, many of whom are families. We are located along the upper headwaters of the mighty Hudson River in Newcomb, NY, very close to the southern hiking access points into the Adirondack High Peaks.

We enjoy exclusive access to over 6,000 private acres of lakes and forests, as well as the entire Adirondack Park, on which we enjoy to fish, swim, hike, bike, climb, paddle, picnic, bird watch, hunt, cross country ski, skate and much more. Throughout the year and through the generations, families have passed along the traditions of simplicity, camaraderie and an abiding love of the Adirondacks.

The Tahawus Club has a historic Clubhouse with 11 simple but comfortable bedrooms. Seventeen members' cottages are clustered in the vicinity of the main clubhouse, which is where our tennis court and playhouse/barn is also located. Our clustered cottages keep our primary recreational lands open for all members' use and enjoyment. We also have rustic cabins and lean-tos on our lakes, for member's overnight use.

We have recently purchased 100 acres on the Hudson River, adjacent to club lands, and plan to soon have more buildable lots for members.

If you wish to obtain more specific information regarding the Tahawus Club, wish to arrange a visit and/or opportunities for membership, please feel free to contact me.

Thank you for your inquiry.

Sincerely,
Fraser Brewer Gilbane fbgilbane@gilbaneco.com
