Department of Transitional Assistance (DTA)

No negative case actions for current DTA cash assistance (TAFDC/EAEDC) cases DTA is stopping all negative cash assistance case actions during the

COVID-19 crisis. This means that, prospectively, no one should be terminated or reduced for any reason-- including sanctions, failure to verify information, reaching the time limit, etc. DTA has not yet worked out what to do about clients whose cash assistance cases are being reduced due to a sanction or overpayment.

This is currently a policy for TAFDC and EAEDC cases only - SNAP policies and procedures to be shared in the coming days. Thank you to DTA for quick action to ensure some of our lowest income families do not lose cash assistance during the crisis.

Policy re. allowing friends/family to use EBT card to purchase food**

A reminder that households can give permission to friends, family, or other trusted people to use their EBT card on their behalf, with no need for formal documentation or written paperwork. The federal rule about this says: "*States shall not require households to notify or provide the State information regarding individuals making purchases permitted by the household on an ad-hoc basis.*"

[7 CFR 273.8\(f\)\(9\)](#)

- All vehicles are being thoroughly cleaned daily with disinfectants. We have increased the amount of time and attention our maintenance department spends cleaning each vehicle.
- PVRTA has acquired new disinfecting systems that will allow us to disinfect each vehicle more frequently.
- PVRTA drivers continue to clean high contact areas of the vehicle throughout their shifts, and we continue to provide them with sanitizer, gloves, and disinfecting wipes to use on the vehicle.
- Passengers are also encouraged to participate in helping to limit the spread of this virus. You can help by maintaining distance between each other whenever possible while riding. Limit seating in the wheelchair accessible seats except for the elderly and disabled. Other things you can do include covering your nose and mouth when coughing or sneezing (or by coughing or sneezing into your elbow), not littering or leaving any waste behind when you leave the vehicle, and most importantly by not riding if you have symptoms such as: a cough, fever or shortness of breath.

GoGo Grandparent (855) 464-6872

Tips and Tools for Coping

<https://emergency.cdc.gov/coping/index.asp>

Tip on how to calm your nervous system- sit down, concentrate on feeling your feet planted on the ground beneath you, put your hand on the back of your neck, scan the room and name objects of different colors and shapes while breathing deeply in through the nose and out through the mouth. Do this for at least 5 minutes or until you feel some relief. This calms the part of our brain that is activated by fear. Call a friend, call the senior center, or the hotline listed above.

ELDER AND DOMESTIC ABUSE HOTLINE

Elder Abuse Hotline

Abuse can include mistreatment by another or self-neglect. If you are concerned for an older adult it is important to report this so that they can get the support they need!

To Report Elder Abuse

There are 2 ways to report elder abuse: by calling the Massachusetts Elder Abuse Hotline or by filing a report online. Call (800) 922-2275 or online

www.mass.gov/how-to/report-elder-abuse

Do not use the online system if:

- This is an emergency or life-threatening situation that must be dealt with immediately. Call 911 or make a verbal report to the Massachusetts Elder Abuse Hotline at (800) 922-2275.
- You want to report anonymously, as filing online requires you to submit your name.
- You do not have the name and address of the victim. The online reporting system will not allow you to file such reports.

If any of these situations apply you must make a verbal report to the Massachusetts Elder Abuse Hotline at (800) 922-2275

SCAMS

Unfortunately, scammers are taking advantage of fears surrounding the coronavirus. The **Federal Trade Commission** has identified several of them and is offering tips to protect yourself and others. These include watching for emails claiming to be from the CDC saying they have information about the virus and ignoring online offers for vaccinations. There currently are no vaccines, pills, potions, lotions, lozenges, or other prescription or over-the-counter products available to treat or cure COVID-19 online or in stores. <https://www.consumer.ftc.gov/features/coronavirus-scams-what-ftc-doing>
