

INSTRUCTOR:
Laura Mattimoe

Laura Mattimoe is a Safety & Health Consultant with the OSHA On-Site Program. She brings fresh insight into hazard assessment and policy development, using common sense approaches and novel ideas. She has helped several businesses achieve their goals of safer worksites for their employees. She received her Bachelor of Science in Environmental Health from Bowling Green State University and her Master of Science in Occupational Health from the University of Toledo.

Reducing Amputation Hazards

1:30 p.m. -2:30 p.m.
5.21.2020

Amputations often occur when employees are caught in running equipment or machinery, whether during regular operation or during maintenance or cleaning. These injuries are severe, often resulting in death or permanent disability. Learn more about the safe operation, servicing, and/or maintenance of machinery and equipment.
