Dear Soroptimists and Patronato por el Futuro de Fronteras,

Good morning, my name is Joselyn Ramirez p. I want to thank you for the help of this scholarship, since it was a great help to pay most of the didactic material of the school. That support was pleasant for me since I only receive the support of my mother, I want to thank you for the immense financial aid provided, with this help it gave me more encouragement to continue with school. Thanks to your support from the scholarship I was able to finish highschool. I hope to continue receiving your help to continue my university career in Mining Engineering, as I have already done. I mentioned above I only receive the support of my mother and her support for me would be of great help. Again thank you very much.

Sincerely,

Joselyn R.
