The 2019 APHC annual meeting will explore social justice in health professions education and practice. Social justice is emphasized as a key value in The Charter on Medical Professionalism, Code of Ethics for Social Work, and the Code of Ethics for Nursing.

We will address:

- What does our experience with healthcare in the 21st century tell us about successes, failures, and opportunities in embracing social justice as a professional value?
- What is our path moving forward?

[Please submit abstracts](#) related to social justice in practice, education and experience and join us for a robust discussion. While submissions related to social justice education and practice are encouraged, we continue to welcome abstracts focused on general professionalism and professional formation as well, all making for a rich and invigorating program.
