

40 Passenger Sleeper Coach

What to Bring

On Board: Small carry-on bag or back pack, blanket or sleeping bag & pillow. Conserve space – blankets take less space than sleeping bags. Use your ski jacket in a pillow case as a pillow.

Under-coach Storage: Skis, poles, boot bag & one large suitcase.

Standard occupancy is four people per booth and two per bunk. Private bunks are available for an additional fee; subject to availability. Each booth is equipped with a collapsible table, one overhead storage bin for shared use by booth occupants and one electrical outlet (subject to availability). Electrical outlets are provided in the 'open seating' area; open seating cannot be reserved. The bus is tower-based, WiFi enabled.

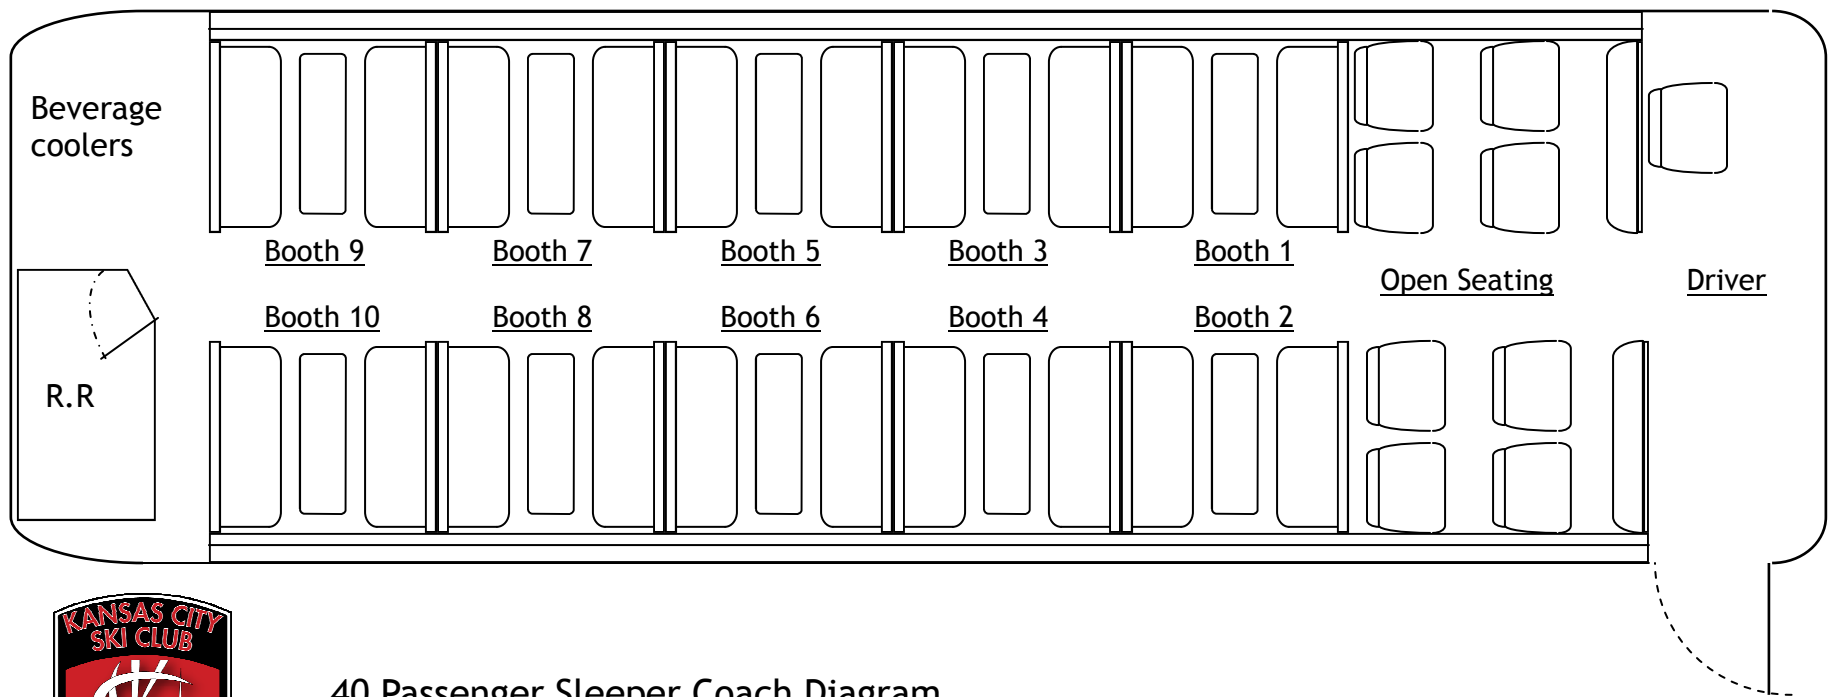

Water, soda & beer coolers are in the BACK of the bus. Trash bags are next to the coolers AND/OR in the front of the bus.

Please observe 'bus courtesy' by alternating the forward/backward seating arrangement and upper/lower bunks with your booth 'buddies'; or per group consensus.

For safety purposes when lying in the bunk, please lie with your head opposite the forward direction of the bus. Please keep the overhead bin door closed and secure at all times.

Upon return to Kansas City, please make every effort to keep the aisle open for those who need to exit quickly in order to meet work schedules.

Everyone is responsible to be onboard the bus for departure when stops are made for refueling, rest stops and driver's breaks.
