

Virtual Meeting, February 26, 2021 and Online Learning/CE Subscription

Guiding Lights of Excellence: Our Leaders Reveal Their Practice Pearls

Due to the pandemic's current rate of infection and limitations on meetings that are in place at the Chicago Downtown Marriott. The AES 2021 Annual Scientific Meeting will Transition to a Virtual/Online Learning Format.

The AES will conduct a live–virtual one day event including our membership meeting and a one–year's access to the AES Online Learning/CE Subscription Portal which will continue to be a feature of meeting registration long after the current pandemic has ended. The AES is very excited about the current offerings and future potential for the new Online Learning/CE Subscription.

Every 2021 Scientific Meeting Registrant will receive:

- Access the one–day virtual event.
- A one–year AES Online Learning Subscription

In future years the subscription will continue to be a benefit of registration at no additional charge.

Register now for AES 2021.

The Online Learning/CE Subscription will provide the following to all registrants:

- Access to all of the 2021 presentations (including the virtual event) and relevant CE via the new AES online learning website. These presentations will be on the site and available to you for the entire year for you to view at your convenience and as many times as you like.
- Access to all of the recorded presentations for the three prior years. You get 2018, 2019 and 2020 and if you didn't attend one of these meetings you can now get the CE also.
- Additional CE presentations to be released throughout the year at no additional costs.
- Access to online learning blogs and discussions.

You'll receive continuous access to 4 years of AES presentations and more to come for the price of 1 meeting. Your subscription will renew every year when you register for the annual meeting at no additional costs. You will have access to an online library of unparalleled presentations and faculty.

Online Learning/CE Subscription. Those who are already registered will be able to start accessing presentations now, with new presentation to be added in the lead up to the virtual event and the 2018–2020 meetings immediately. The AES is presently planning on presenting the full 2021 program as listed below.
