 Date Completed: _____

Welcome to the “Letters From Home” Series.

Use this document to record the letters you have “received” - aka the Letterbox Hybrid geocaches you have found in the series.

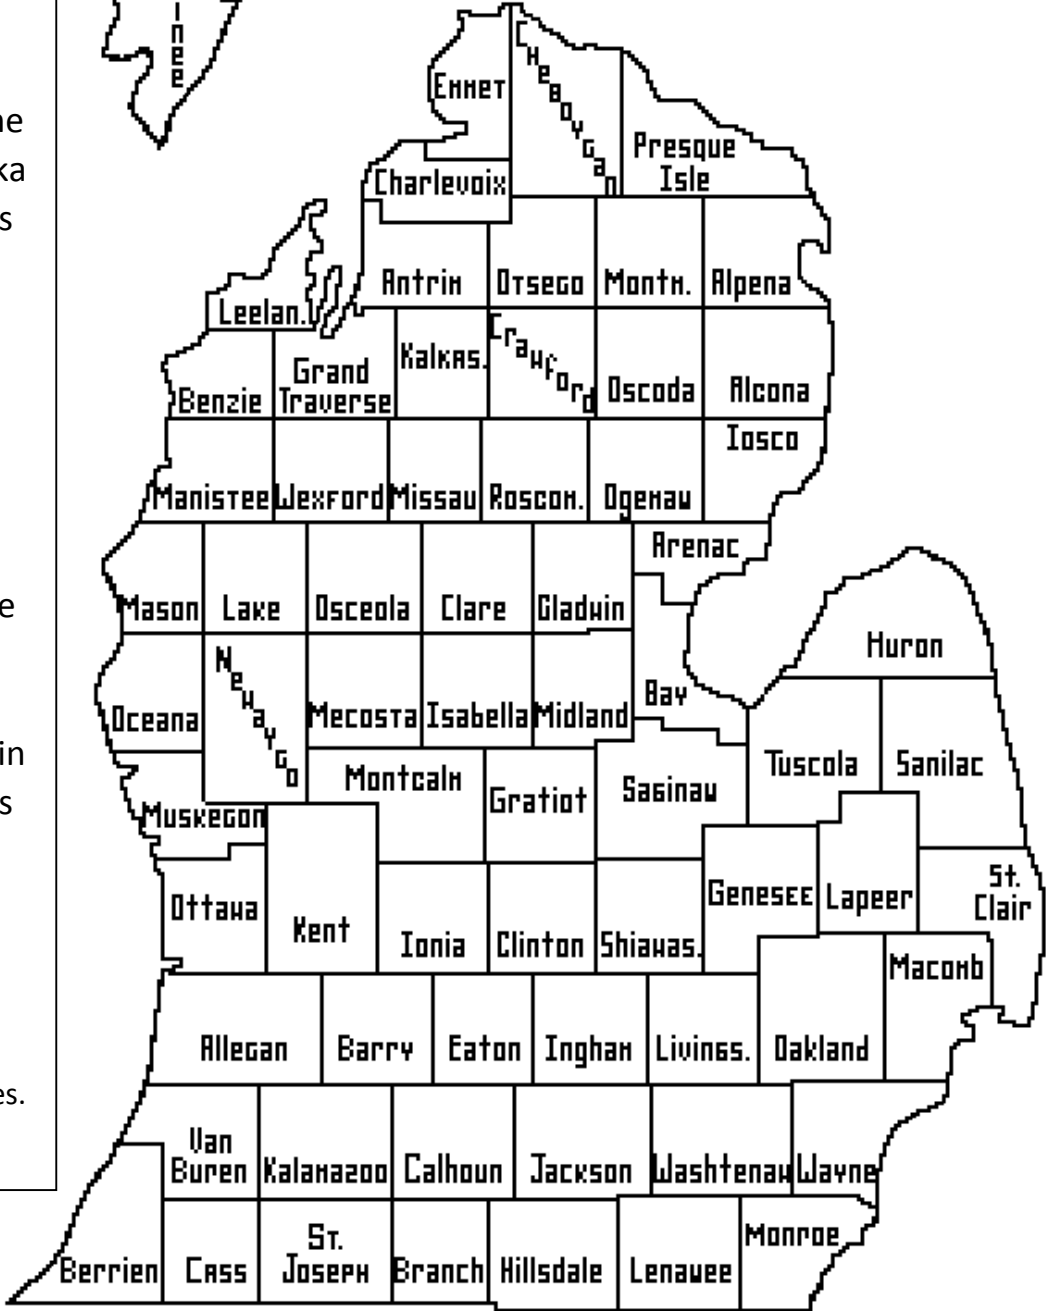

The first page shows the geographic positions of the 83 Counties in Michigan that are highlighted in the Letters From Home series.

The second page and third page are designed so that you can stamp the Counties with the corresponding stamps located in the Letterbox Hybrid geocaches in the series.

Remember to bring your own ink pad.

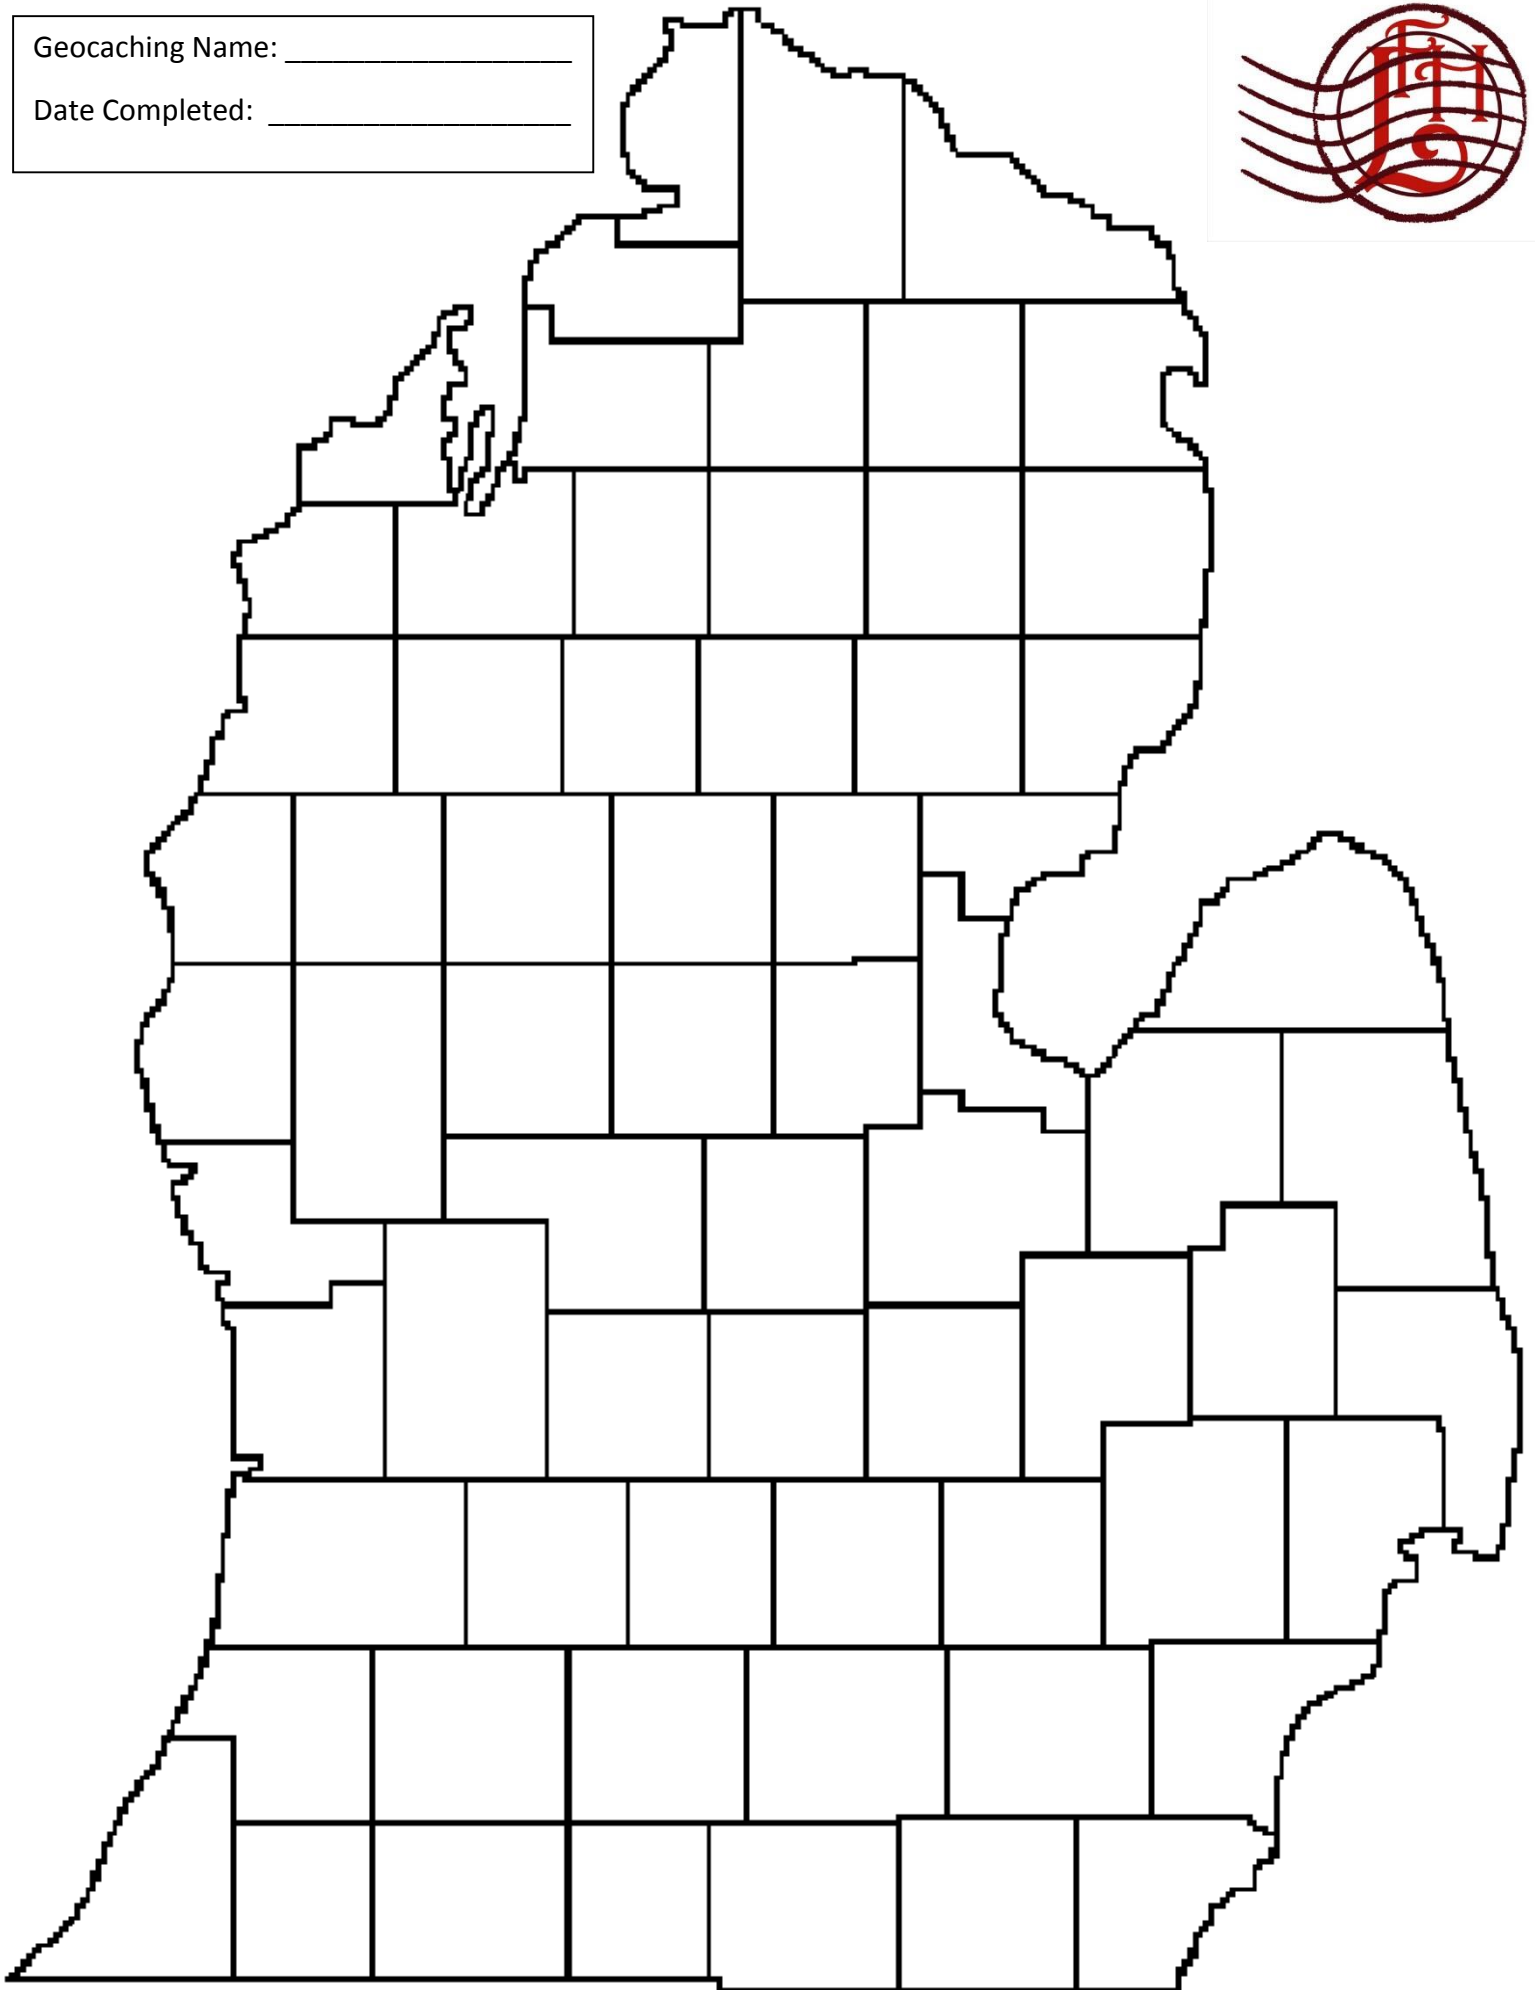

No ink pads will be placed in any of the geocache containers in this series.

Do not take the stamps
