Location: (F 15) On Troublesome Creek, Mill and log dam
Comments: Check with SCS office in Jackson.

OLD GRIST MILL

AKA:

ROWDY

ID: KY-013-002 Type: Grist Mill Built: Currently: Updated: 11/2001
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: In ROWDY COMMUNITY, between Jackson & Hazard on Route 476, on Troublesome Creek.
Comments: No current information is available.

BRECKINRIDGE COUNTY

IRVINGTON GRIST MILL

AKA: CUSTER MILL

IRVINGTON

ID: KY-014-001 Type: Grist Mill Built: Currently: Other Business Updated: 07/1994
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: (E 8) In Irvington, which is just north of US 60, approx. 45 miles southwest of Louisville.
Comments: Used for storage.

BUTLER COUNTY

MORGANTOWN GRIST MILL

AKA:

MORGANTOWN

ID: KY-016-001 Type: Grist Mill Built: Currently: Updated: 08/2000
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: (G 8) In MORGANTOWN. Exact location is not known.
Comments: Mill using a Midget Marvel system as late as 1916. No other information available.

CAMPBELL COUNTY

GUBSER'S GRIST MILL

AKA:

GRANT'S LICK

ID: KY-019-001 Type: Grist Mill Built: Currently: Updated: 07/2003
Powered by: Condition: Site
Latitude: Longitude: Watsource:
Location: (C 13) Parts of the mill can be seen at Log Cabin Museum, 243 W. Clay Ridge Road in GRANT'S LICK.
Comments: The mill has been destroyed, and some parts can be seen at the museum. What parts are there, we don't know. And we have no further information about the history of the mill

CASEY COUNTY

OLD GRIST MILL

AKA:

MIDDLEBURG

ID: KY-023-001 Type: Grist Mill Built: Currently: Updated: 10/1981
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: (G 12) At Middleburg, on the Green River. It is located about 1/2 mile north of Yosemite at the junction of SR 198 and SR 1552.
Comments: No information available.

CHRISTIAN COUNTY

RINN'S GRIST MILL

AKA:

PEEDEE

ID: KY-024-001 Type: Grist Mill Built: Currently: Updated: 12/1997
3/28/2018

KENTUCKY MILL LIST

Powered by: Condition:
Latitude: Longitude: Watsource:
Location: (H 6) Southwest of HOPKINSVILLE and I-24 on Little River. Take SR 164 southwest from Newshead for 5 miles. Turn southeast at Peedee and go 1 mile.
Comments: No information available.

PARKER'S GRIST MILL

AKA:

ID: KY-024-002 Type: Grist Mill Built: Currently: Updated: 10/1981
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: (J 5) 3 miles west of SR 114 and 1 1/2 mile north of I-24, in lower southeast corner of the county, near TN border. Name of town is not known.
Comments: No information available.

HALEY GRIST MILL

AKA:

HALEY'S MILL

ID: KY-024-003 Type: Grist Mill Built: Currently: Updated: 06/2012

Location: (H 6) No location information. Near community of Haley's Mill.
Comments: No information available.

CLARK COUNTY

MARTIN-HOLDER-BUSH GRIST MILL

AKA: HAMPTON MILL

WINCHESTER

ID: KY-025-001 Type: Grist Mill Built: Currently: Updated: 06/1996
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: (E 13) Address restricted. No other location available.
Comments: Listed on the National Register of Historic Places, 11/20/90. No other information available.

F. TAYLOR GRIST MILL

AKA:

WINCHESTER

ID: KY-025-002 Type: Grist Mill Built: Currently: Updated: 06/1996
Powered by: Condition: Non-operational
Latitude: Longitude: Watsource:
Location: (E 13) Address restricted. No other location available.
Comments: Listed on the National Register of Historic Places, 11/20/80. No other information available.

CLINTON COUNTY

ALBANY GRIST MILL

AKA:

ALBANY

ID: KY-027-001 Type: Grist Mill Built: 1921 Currently: Updated: 11/1993
Powered by: Condition: Deteriorating
Latitude: Longitude: Watsource:
Location: (J 11) In vicinity of Albany at the state line, in town of Branch Creek.
Comments: The mill had a Fitz overshot waterwheel. The wheel has been removed and the building is deteriorating.

ANDREWS GRIST MILL

AKA:

SEVENTY SIX FALLS

ID: KY-027-002 Type: Grist Mill Built: Currently: Part of a Villag Updated: 11/1998
Powered by: Overshot Wheel Condition: Site
Latitude: Longitude: Watsource:
Location: In what was planned to be a town called Seventy Six Falls which is in the vicinity of SOMERSET and ALBANY, KY.
Comments: A town was planned at SEVENTY SIX FALLS, which never developed. This name was derived from the

KENTUCKY MILL LIST

falls at the mill, which were said to be 76 feet high. John Andrews, Frethis Andrews and Cyrus Wells purchased the mill in December, 1864. The mill burned in 1977. Besides the mill, there was a sawmill, blacksmith shop, cabinet shop, carding factory and a store. For further information, contact Luretha Cross, 152 Crawford Ave., Somerset, KY 42501. She has a book which was written about the area.

DAVISS COUNTY

MAYHEW GRIST MILL

AKA:

OWENSBORO

ID: KY-030-001 Type: Grist Mill Built: Currently: Updated: 08/2000
Powered by: Electric Condition: Non-operational
Latitude: Longitude: Watersource:
Location: (F 6) In OWENSBORO. Exact location is not known.

Comments: This was one of the very first installations of the Midget Marvel milling system in the United States. It was known to be in operation in 1916. Condition of the mill is not now known.

EDMONSON COUNTY

CHAUMONT GRIST MILL

AKA: MAMMOTH CAVE NATL. PARK

CAVE CITY

ID: KY-031-001 Type: Grist Mill Built: Currently: National Park Updated: 03/2005
Powered by: Condition: Restored
Latitude: Longitude: Watersource:
Location: Off I-65, on KY 255/70

Comments: Within Wondering Woods historic museum village

FAYETTE COUNTY

GRIMES GRIST MILL

AKA: IRIQUOIS HUNT CLUB

LEXINGTON

ID: KY-034-001 Type: Grist Mill Built: 1803 Currently: Other Business Updated: 03/2005
Powered by: Turbine Condition: Non-operational
Latitude: Longitude: Watersource: Boone Creek

Location: (E 12) From Lexington, go south on US 25 about 11 miles to a junction with Grimes Mill Road, turn left/east and go 1.6 miles to 7520 Grimes Mill Road. The mill will be on the right. On Boone Creek.

Comments: Built 1803 by Phillip Grimes. The Charles Grimes' merchant mill was built to grind wheat for export to New Orleans. Malt house and distillery added soon after mill was built. Grimes Whiskey became famous. For over 100 years it continued under various owners. In 1928 it ceased operating and became the headquarters for the Iroquois Hunt Club. Built of stone and wood. An arch on the side indicates that probably the water flowed through the building. The shingle roof looks old, but it has been remade into quite a fancy club. Picturesque. Listed on the National Register of Historic Places, 6/21/82.

<http://www.iroquoishunt.com/history.html>

Book available: Grimes Mill: Kentucky Landmark on Boone Creek, Fayette County First Edition by Harry G. Enoch (Author)

JAMES PETTIT'S GRIST MILL

AKA:

FORD

ID: KY-034-002 Type: Grist Mill Built: Currently: Updated: 06/1996
Powered by: Condition: Non-operational
Latitude: Longitude: Watersource:
Location: (E 13) On SR 418 near FORD. No other location available.

Comments: Listed on the National Register of Historic Places, 6/23/83. No other information available.

BOWMAN GRIST MILL

AKA:

LEXINGTON

ID: KY-034-003 Type: Grist Mill Built: Currently: Coffee Pub Updated: 06/2009
Powered by: Condition: Other Business
Latitude: Longitude: Watersource:

KENTUCKY MILL LIST

Location: (E 12) 2800 Bowman Mill Rd. From US-68W go right onto Old Harrodsburg Rd. After 0.2 mile, take a slight right onto Bowman Mill Rd.

Comments: On S. Elkhorn Creek. In Bowman Mill Historic District. Listed on the National Register of Historic Places, 07/28/99.

FRANKLIN COUNTY

GEORGE B. MACLIN GRIST MILL

AKA:

FRANKFORT

ID: KY-037-001 Type: Grist Mill Built: Currently: Other Business Updated: 06/2009

Powered by: Condition: Operational

Latitude: Longitude: Watersource:

Location: (E 12) East of Frankfort in community of Forks of Elkhorn at the forks of the Elkhorn River, along US 460.

Comments: A.W. Macklin and son George B. Macklin joined in a business arrangement. In 1844 a large merchant and custom flouring mill was built on the Elkhorn with a capacity of 150 barrels per day. It was the only water-power mill in the country that could be operated during the entire year. He was joined by his eldest son, Benoni Macklin, age 20 (must by A. W. Macklin's grandson, son of George B.), who took control of the mill. At George B.'s death, it became the property of Benoni and then passed to his 7-year-old daughter. On the Elkhorn River. Now operating as Joe Beam/Old Grandad Distillery.

GRAYSON COUNTY

GREEN BROS. GRIST MILL

AKA:

FALLS OF ROUGH

ID: KY-043-001 Type: Saw and Flour Built: 1823 Currently: Updated: 10/2005

Powered by: Turbine Condition: Non-operational

Latitude: Longitude: Watersource:

Location: (F 8) Northwest of Leitchfield. 5 miles from Rough River Dam Park, on KY 110. West of Rt 79 by 2.3 miles.

Comments: 1823 – mill built by Morgan B. Green and brother Willis Green. House and store also built. The original dams built by George Wilson and then Benjamin Sebastian did not last as they were constructed of logs. Later one of stone was constructed. Operated continuously for 140 years by the Green Family. Farmers from 7 counties brought grain for milling into flour and cornmeal. The sawmill had an old circle saw installed in 1823; it was replaced by a band saw, six feet by eight inches in 1914. In 1921 a still larger band saw, six feet by ten inches, was installed. The saw mill closed in 1933 due to a lack of good timber. In 1938 the sawmill was dismantled and shipped to the Miller Brothers Lumber Co. in Florida over the Old Branch line of the L & N Railroad on the last leg of its operation. The flour mill had a capacity of 25 barrels per day, operated an average of 250 days in a year, and ground 6,250 barrels of flour per year. A barrel consisted of eight 24-pound sacks; each sack weighed 23 pounds. Only when the river flooded did it shut down. The best grade of flour was "Grayson Lily," second was "White rose," and third grade was "Good Enough." Much of the flour was distributed from Louisville. Many area farmers sold their wheat to the Green Brothers, leaving some in storage for their own use. Thus, they could get a barrel of flour whenever they wanted. A toll of one-twelfth was exacted for storage and grinding. The meal ground there was labeled "Old Fashioned Water Ground." They grew all of the corn they used. It was all "Boone County White" because it had a white cob and left no red specks in the meal. The water ran through the building built over the dam. Construction: foundations of cut stone; the rest white clapboards; roofs of tin, now rusted red. The iron wheel mounted on the side (there were two, one is on a facing side and was not photographed) was probably turned by the water wheel and in turn ground the grain. Part of a 6000 acre farm and timber complex supporting

KENTUCKY MILL LIST

several family owned industries including a grist mill, saw mills, general store, and post office. Some of the buildings used to be a school and a church. Nearby is a mansion, now a bed and breakfast. Update: In 2010 a fire destroyed the old general store and post office. The foundations are still standing. On August 14, 2015, the mill collapsed. "... Mr. Harvel Escue plans to give the mills to the Falls of Rough Old Mill Preservation non-profit group for the stabilization and reconstruction of the Mill. He has worked with our group to dismantle the mill, saving all the equipment, t-beams, gears, and everything else needed. Using as much of the original mill as possible, construction is expected to start in Fall 2016."

LINCOLN COUNTY

BAUGHMAN GRIST MILL

AKA:

STANFORD

ID: KY-069-001 Type: Grist Mill Built: 1881 Currently: Updated: 10/2017

Powered by: Condition: Non-operational.

Latitude: Longitude: Watersource:

Location: (F 12) At Depot & Mill streets in STANFORD.

Comments: Built in 1881 as Lincoln Mills it struggled to be successful until Purchased by J.H. Baughman in 1892. Joined by his brothers, Jim and John, and brother-in-law, Walter McKinney, it became known as J.H. Baughman & Co. It operated until John Baughman, Jr. Retired in 1969. The mill contains logs from Kentucky's first steam mill, Buffalo Mill, ca. 1848. Listed on the National Register of Historic Places, 3/29/78.

DUDDERER GRIST MILL

AKA:

STANFORD

ID: KY-069-002 Type: Grist Mill Built: Currently: Updated: 07/2003

Powered by: Condition: Non-operational.

Latitude: Longitude: Watersource:

Location: (F 12) East of STANFORD on Goshen Road.

Comments: Listed on the National Register of Historic Places, 4/16/79. No other information available.

LOGAN COUNTY

SHY'S GRIST MILL

AKA:

Location: (F 13) 8 miles west of RICHMOND on Silver Creek. No other location available.

Comments: Listed on the National Register of Historic Places, 8/13/76. No other information available.

McCREARY COUNTY

STEPHEN'S GRIST MILL

AKA: CHRIS KING'S MILL

PINE KNOT

ID: KY-080-001 Type: Grist Mill Built: Currently: Updated: 11/1994

Powered by: Condition: Ruins

Latitude: Longitude: Watersource:

Location: (J 13) On SR 92 to Daniel Boone National Park, which is 4 miles east of Pine Knot Post Office.

Comments: The mill has collapsed and is now just a pile of rubble. Because of the bad condition of the road to the mill, it's almost impossible to get to the site by automobile. An historic marker signifies the mill location.

MEADE COUNTY

PUSEY-COLEMAN GRIST MILL

AKA:

MULDRAUGH

KENTUCKY MILL LIST

ID: KY-082-001 Type: Grist Mill Built: Currently: Updated: 12/1997
Powered by: Condition: Ruins
Latitude: Longitude: Watersource:
Location: (E 9) in vicinity of MULDRAUGH on Doe Run Creek near junction of US 60-31W and SR 1638. Go northwest 5 to 8 miles.
Comments: Only ruins remain.

DOE RUN MILL

AKA: Stevenson's Mill

BRANDENBURG

ID: KY-082-002 Type: Grist Mill Built: 1788 Currently: Updated: 06/2015
Powered by: Condition: Non-operational
Latitude: Longitude: Watersource:
Location: (E 9) From Brandenburg, take SR-448 southeast. Stay with 448 when 1638 splits to the left. Turn left on Doe Run Inn Road and go to the end.
Comments: Thomas Lincoln (Abe's brother) was a stone mason who helped build part of the building. The original mill was probably built in 1788, with an addition in 1821. It last operated in 1880.
1788-1790 - Taller part built by Jonathan Essery. Originally known as Stevenson's Mill. It is made of local limestone with timbers that were hand-hewn. The walls are two feet thick. It was built on Doe Run, discovered and named by Squire Boone, brother of Daniel Boone. Originally a textile mill.
1800 - A section was added. Thomas Lincoln (Abe's brother) worked as a stonemason on this part. The mill was seldom profitable due to many competing mills.
1900 - It was being used as a barn.
1901 - Purchased by W.D. Coleman and became the Sulfur Wells Hotel. Tourists came for the health benefits of the sulfur water.
1947 - Leased by the Haycrafts
1958 - Purchased by Curtis and Lucille Brown and renamed the Doe Run Inn.
Dec. 19, 1978 - placed on the National Register of Historic Places
2014 - Closed sometime during this year. Went on the auction block October 2016. Rumor has it that there is a quirky ghost, seen on the stairway and in the dining room, that unties guests' shoes.

ROCKCASTLE COUNTY

GRIST MILL BAKERY

AKA:

RENFRO VALLEY

ID: KY-102-001 Type: Replica Built: Currently: Updated: 02/2005

KENTUCKY MILL LIST

Powered by: Overshot Wheel Condition: Operational
Latitude: 37.38617 Longitude: -84.33067 Watersource:
Location: (G 13) In RENFRO VALLEY, just off I-75, Exit 62 in Crafts Village.
Comments: A bakery which grinds cornmeal in a replica mill with an overshot waterwheel. The wheel is mounted on the bakery for cosmetic purposes. There is a large reflective millpond directly at the rear of the building.

SCOTT COUNTY

WEISENBERGER'S GRIST MILL

AKA: MIDWAY MILL

MIDWAY

ID: KY-105-001 Type: Grist Mill Built: Currently: Updated: 06/2015

Powered by: Electric Condition: Operational

Latitude: 38.12850 Longitude: -84.63650 Watersource:

Location: (E 12) From I-64 go into the town of MIDWAY. From the railroad crossing in town, go 3 blocks to Stephens Street. Turn left, past Midway College, for approx. 3 miles to the mill.

Comments: 1865 – August Weisenberger emigrated from Baden, Germany and purchased an existing three-story stone mill His son, Philip, took over the operation and was later joined by his son August later by son Phil. Today Phil's son Mac Weisenberger owns and operates the mill, and his son Philip has joined the family business as well. 1913 – The old mill had become structurally unsound. It was demolished and the stone crushed to make a new concrete building. The water wheel was replaced by a twin-turbine electric generator powered by water from the creek. As more equipment was added, they had to supplement with power from the local utility. @2013 – A \$56,000 grant from the US Dept. of Energy supported the installation of a new, more energy efficient generator, allowing the creek to provide all of the mill's power needs. Equipment in use is still a system of belts and wheels @-1913 This remains a smaller mill, grinding about 1,000 bushels of grain a week. Products in the early years were soft wheat flour and white cornmeal. By the 1940s, In order to meet the demands of customers, they began to offer more products and now offer more than 70 items, including a variety of flours, mixes, and breading blends. Purchases can be made on site, on line. About 80% of their sales now are to restaurants and institutional kitchens. All of its grain comes from within a hundred miles of Midway. It is now part of a larger milling operation. Although most milling is done with electricity, some specialized grinding is done with water. Listed on the National Register of Historic Places, 1984.

Latitude: Longitude: Watersource:

Location: (J 8) South of FRANKLIN on SR 383 about 8 miles, turn west on SR 591, go 3 miles to the mill.

Comments: No information available.

SPENCER COUNTY

VANDYKE GRIST /SAW MILL

AKA:

TAYLORSVILLE

KENTUCKY MILL LIST

ID: KY-108-001 Type: Saw and Grist Built: 1789 Currently: Updated: 05/2003
Powered by: Undershot Wheel Condition: Site
Latitude: Longitude: Watersource:
Location: (G 3) In Spencer County, on Brashears Creek. Exact location has not been determined. (Could not locate Spencer County on the KY state map.
Comments: Built in Virginia in what is now Spencer County, KY, by Elijah and Billy VanDyke, this 4 story log mill housed 4 run of French buhrs, a sawmill and a carding mill. The large mill was powered by an undershot wheel on an 11 foot head of water. The mill operated until 1959, last by C.L. Stout and his descendants for 45 years. This period spanned the entire evolution of flour milling from stone buhrs and hexagon reels to the present modern methods.

TRIGG COUNTY

CADIZ FEED MILL

AKA:

CADIZ

ID: KY-111-001 Type: Feed Mill Built: 1911 Currently: Feed Mill Updated: 07/1997
Powered by: Condition: Operational
Latitude: Longitude: Watersource:
Location: On Hwy 68, 5 miles east of CADIZ.
Comments: The original mill, built in 1870, was located at the west city limits, across the river. This mill was removed in 1960 when Barkley Lake was created. The new mill, which is now a feed mill, was built to replace the original mill. Owner is H.S. White.

UNION COUNTY

EXCHANGE GRIST MILL

AKA: WALLACE & WYNNS MILL

UNION

ID: KY-113-001 Type: Grist Mill Built: Currently: Updated: 08/2000
Powered by: Condition: Non Operational
Latitude: Longitude: Watersource:
Location: (F 5) in the town of STURGIS. Exact location is not known.
Comments: The mill was known to be using a Midget Marvel system in 1916. Today's condition is not known.

WASHINGTON COUNTY

Latitude: 36.93408 Longitude: -84.77870 Watersource:
Location: (H 12) On Lake Cumberland (site of the battle of Mill Springs in the Civil War). From MONTICELLO, take Hwy 90 north for 5 miles, then left on Hwy 1275 for approx. 1 mile. From Burnside (Pulaski County) on US 277 go west 12 miles on SR 90, to SR 1275; turn
Comments: A 42 foot overshot waterwheel is fed by 7 or more springs. One of the largest wheels in the US.

KENTUCKY MILL LIST

Owned and operated daily by the National Park Service. Listed on the National Register of Historic Places, 1973. Open for visitors Memorial Day weekend through Labor Day weekend. Mailing address is: 1000 Boat Dock Road, Somerset, KY 42501-8679. Phone: 606-679-6337. Photogenic.

HURTS GRIST MILL

AKA: ADKINS-HURT MILL

MT. PISGAH

ID: KY-116-002 Type: Grist Mill Built: 1836 Currently: Updated: 06/1996
Powered by: Condition: Ruins

Latitude: Longitude: Watersource:

Location: (J 12) South MONTICELLO, at MOUNT PISGAH, on Route 167, on the little south fork of the Cumberland River.

Comments: The mill was built by Benjamin Adkins of yellow poplar logs with rifle slits on 2 levels. In 1881 the mill was sold to M.J. Hurt, thus the name Adkins-Hurt Mill. The mill was the oldest mill in Kentucky and was in continuous use until 1960. Present owner is Andrew W. Kanably of Detroit, MI. It is listed on the National Register of Historic Places, 1977. Due to general neglect the mill collapsed into a pile of rubble in August, 1994.

GLUFORD GRIST MILL

AKA:

MONTICELLO

ID: KY-116-003 Type: Grist Mill Built: 1932 Currently: Updated: 11/1997
Powered by: Turbine Condition: Non-operational

Latitude: Longitude: Watersource:

Location: (H 12) Near MONTICELLO, south of SR 90 along Otter Creek, east of SR 200.

Comments: Not operating. It had a turbine and stone grinding was done until customers demanded bolted meal. Last operated in 1945.

WOODFORD COUNTY

GUYN'S SAW MILL

AKA:

TROY

ID: KY-120-001 Type: Sawmill Built: Currently: Updated: 06/1996
Powered by: Condition: Ruins

Latitude: Longitude: Watersource:

Location: (E 12) Within Guyn's Mill Historic district, and adjacent to (KY-120-002) At Mundy's Landing & Paul's Mill road, 2 1/2 miles northwest of South Elkhorn Creek on the Lexington-Harrodsburg Pike.

Comments: Not much remains. Billed as KY oldest mill and was exhibited at the 1892 Chicago World's Fair. However, Craig's Mill and Higbee's Mill may be some older. Listed on the National Register of Historic Places, 1983.

GUYN'S GRIST MILL

AKA: PAJNA CO.

TROY

ID: KY-120-002 Type: Grist Mill Built: 1860 Currently: Other Business Updated: 06/2009
Powered by: Steam Condition: Non-operational

Latitude: 37.90114 Longitude: -84.70967 Watersource:

Location: (E 12) Take SR-33 southeast out of Versailles. Once it has made a sharp turn to the southwest, watch for Pauls Mill Road on the right/west, then ¼ mile to Paul's Mill. (Adjacent to KY-120-001).

Comments: Built circa 1850-1870 by William Rankin Guyn (1839-1927). It was strategically positioned along the early trade routes that ran among Lexington, Mundy's Landing, and Harrodsburg. William first built a sawmill, later a grist mill and blacksmith shop and operated them with his brother Moses. Together with the Paul's Mill and an inn run by other neighbors, the Blacks, this became a bustling small community. William's children took over operation of the mill, a general store and other family businesses. Operated until 1920. Much of the equipment remained in 1983. Description: 2.5 stories clapboard plus attic 40' X 30' Massive tenoned beams, circular sawn rafters and joists, Stone foundation of ashlar cut Kentucky limestone with stone piers, gable roof, remnant of a small rock dam downstream. Sign says restoration in progress but no evidence of activity. This mill is said to be haunted. Sometimes some see an apparition of an old man to the left, and to the right some say a

HOPE MILLS	AKA:	VERSAILLES
ID: KY-120-006 Type: Roller Mill	Built:	Currently: Updated: 10/2005
Powered by:	Condition: Non-operational	
Latitude: 38.05444	Longitude: -84.73074	Watersource:
Location: On Green Street just west of Main Street in Versailles.		
Comments: An abandoned flour mill in Versailles, On the front, faintly printed, one can read: Roller Mills – Grain – Hay. An article published before 1922 says this mill “does Versailles credit . . . Known favorably in the state for 25 years and especially the last 10 under present proprietor . . . “. Superior equipment and warehouses. Sells flour to the best class of merchants all over Kentucky. Best grades of Hope Mills flour, often winning over other first-class brands. “Hope Mills flour is made "on honor." Cain & Rout are able to say that during all of their ownership of the mills (including the trying times for millers a few years ago when many mills were adulterating flour), they have never made or sent out a single pound of flour that was not absolutely pure.” Capacity of 200 barrels per day. Cain and Rout, owners, also owned a valuable wheat elevator at the edge of town http://www.stithvalley.com/ancestry/cain/jandrew/hopemill.htm

Comments: 2 story stone, gable roof; Mill pond and dam, park-like grounds, swans on the pond. John Paul		

KENTUCKY MILL LIST

purchased 300 acres in 1813 from prominent Lexingtonians. The mill may already have been there at that time as the stone construction and wooden machinery that are still in evidence today appear to predate 1813. There were also outbuildings that included brick slave quarters, two stone foundation barns, a log corn crib with covered wagon stand, and a distillery. The Guyns, neighbors, also had a wood mill, and other neighbors, the Blacks, used their home as an inn, Black's Station, to accommodate people bringing wood, flour and corn to the mills. Together, the families created a thriving community that enhanced the local agricultural and industrial economies for over 100 years. Four generations of the Paul family owned this property, the last one selling the property in the early 1900s. The Connecticut native Mrs. Rupert Porter purchased the property around 1960, renamed it Valhalla, and initiated an extensive project on many of the buildings and the bridge crossing over Clear Creek onto the property. In the 1980's Dr. Herman and Elizabeth Playforth developed a portion of the farm to accommodate their fox-hunters. Most recently Ben and Elaine Walden have made extensive renovations to suit the farm's new purpose the raising of exceptional Thoroughbred racehorses. The name Pauls Mill has been restored. The mill house is again the center of a bustling economy as it serves as the farm's office. The gears for the old mill wheel sit side by side with today's computer technology. Listed on the National Register of Historic Places 1980.
