Sociologic: Analysing Everyday Life and Culture

Sociologic introduces you to the study of contemporary society, through everyday life examples and themes. It encourages a boundless curiosity about the social world around us and what it means to take a sociological perspective on Australian society.

Written by teachers of sociology, this new edition has been thoroughly revised and updated with current sociological, cultural and geographical theories and examples. It guides you through the various sociological concepts and how you can relate and apply these theories to your own experiences of everyday life. This insight equips you to have informed discussions about what traditions of our society are important for us to protect and keep, and what parts of society we believe we should challenge and change.

Edited by James Arvanitakis

James is Pro-Vice Chancellor (Engagement) at Western Sydney University. Named as the Prime Minister's University Teacher of the Year (2012), he has worked with educators to bring sociological theory to life in South Africa, India, the United Kingdom and most recently in the United States as a Fulbright Scholar at the University of Wyoming.

New to this Edition

- Five new chapters:
 - Nation and Nationalism in a Globalised World
 - Society and the Environment
 - Technology and the Digital Childhood
 - Social Movements
 - Religion and Contemporary Society
- Takes a sociological view of how society has been affected by current events including COVID-19 and the 2019/20 bushfires
- Updated **student and practitioner profiles** help you learn practical examples through the voices and perspectives of real people
- New **themed theory boxes** make the text easier to navigate and provide you with historical and current day examples; theory discussion; and sociology methods in action
- **Critical reflection and discussion questions** encourage you to reflect on your own life and how the theories outlined relate to your experiences
- New contributors of the text are current teachers who understand the tools you need to analyse how society functions, operates, and changes.

Lecturer Resources

- Instructor's Resource Manual
- Multiple Choice Questions
- PowerPoints with chapter summary points
- Key theorists
- Glossary terms
- Popular videos from the last edition, for example, 'Why Study Society'
