

In gmail all of your “spam’ or “junk mail should be found in the Junk Email folder circled below. So if you didn’t receive the email from ClubExpress with your new username and temporary password then look in the Junk Email folder. If you find it in that folder you can mark it as Not Spam and move it to your Inbox.

The screenshot shows a Gmail inbox interface. On the left sidebar, the 'Junk Email' folder is circled in blue. The main inbox area shows a list of emails. The top of the inbox is divided into sections: Primary (50 new), Social (50 new), and Promotions (49 new). The email list includes:
