## Staff Report

Atterdag Village of Solvang hosted a ground-breaking ceremony Nov. 16 for its new Care Center Rehabilitation Wing, which will provide a separate short-term rehabilitation facility for local seniors recovering from illness or injury.

“Often seniors in our community have needed to stay in Santa Barbara while convalescing; the new wing will help many recover close to home, family and friends,” Executive Director Chris Parker said. “The people of the valley have always supported our mission of caring for the elderly, and we have been blessed with many supporters for this project.”
