The Halifax River is shallow in the Daytona Beach area with average water depth outside of the ICW dredged channel of 2 – 3 ft. at low tide.

Usual tide range is 2.5 ft.

### Anchorage:

1. Location: South of Daytona Marina entrance  
ICW Day Mark Marker: 42  
Lat / Lon: N 29° 11.683' / W 081° 00.250'  
Depth: 7-14 Feet  
Holding: Excellent, Sandy Mud
2. Location: East of Sunset Harbor Yacht Club  
ICW day mark #32  
Lat / Lon: N 29° 13.792 / W 081° 01.294  
Depth: 7-14 Feet  
Holding: Excellent, Sandy Mud

The Halifax Harbor Marina has 550 slips (386-671-3603)

This is a very popular stopping place for ICW travelers.

Diesel fuel is \$2.58 (11/13/2020)

From mid-November to mid-April the average number of slips available on any given day may be limited. Many nights occupancy is 100% for boat slips 30' or longer.

In the south basin of the Halifax Harbor Marina there is a public launch ramp where dinghies could be tied to the north-east side of the eastern most finger pier. During the weekends (Sat. & Sun.) usage can be high. I would estimate about 8-10 dinghies could tie up here. The ramp is open to the public at all hours.

### Kennedy Space Center Visit:

Best bet is to travel 40 miles south to the

Titusville Municipal Marine (321-383-5600) has a new mooring field that allows long term unattended use BUT, they do charge a fee. You can rent a car or take a uber ride to the Space Center.

TMM do allow anchoring in the same area.

The management company is very cruiser friendly the last time we were in there.

They also have a dinghy storage rack and a dinghy dock.

Titusville is about an hour's drive from Orlando Airport.
