

Water, Climate Change and the Law: The Case for More Protection. This article by Kathy Jacobs in the Arizona Journal of Law and Environmental Policy (Spring 2019) asks if we, in Arizona, can find the courage and far-sightedness to forge a water policy that will protect not just our economy, but the health of our natural habitats, and will to safeguard our environmental legacy for future generations.

## **SOME ADDITIONAL WEBSITES WITH WATER INFORMATION**

<https://az.audubon.org/conservation/western-rivers-action-network>

Rivers in the west are essential, not only for birds, but also for people, for habitats, and for our economic livelihood. This site provides information about ways to advocate for conservation of water in the west.

<https://wrrc.arizona.edu/>

The Water Resources Research Center at the U of Arizona is a clearinghouse for information about almost every aspect of water. You can subscribe to the “Weekly Wave” for regular updates about water. The Center hosts regular brown-bag seminars on water issues, and also links to events being held elsewhere that focus on water concerns. Their annual publication “**Arroyo**” provides an accessible but in-depth look at a different topic each year (<https://wrrc.arizona.edu/arroyo>).

<https://ccass.arizona.edu/>

The Center for Climate Adaptation Science and Solutions is one of the Arizona Institutes for Resilience. CCASS focuses on using sound science to address policy and decision-making in an era of climate change. The center focuses on several themes, including water security, planning and policy.

<https://new.azwater.gov/>

The Arizona Department of Water Resources website provides news and updates, legislative and executive branch information on water policy efforts, and a wealth of data on water throughout the state.

## **UPCOMING WEBINARS**

The Arizona Institutes for Resilience, along with the WRRC and the Udall School of Public Policy at the U of Arizona, is sponsoring a series of webinars entitled “Water Solutions for our Warmer World” over the next several months. To find out more and to register for the webinar presentations, go to:
