							0	0.00		

— To sort the winners:

- Select the Category group of cells you want to group
- Then first sort by column C by Ascending order
- Then secondly sort by column K by Descending order (Column K is not rounded up and therefore is used to determine the winning order and tie-breakers, unless the scores are the same in this column.)
- If the score in column J is Green with a value of 80 or higher then they deserve a Merit
