

חוגי תעופה – הוראות בניה

PL3 - Square Nose למטוסי נייר דגם

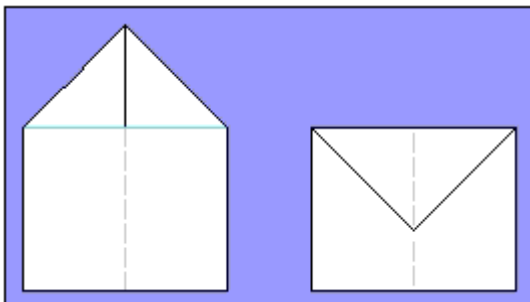

Step 1

Fold an 8 1/2 x 11 inch sheet of paper down the middle of the long dimension. Don't panic. Just look at the pictures. On the left I'll show you what you're starting with, and I'll mark (in blue) where you're going to fold. On the right you'll see what you should end up with after each step.

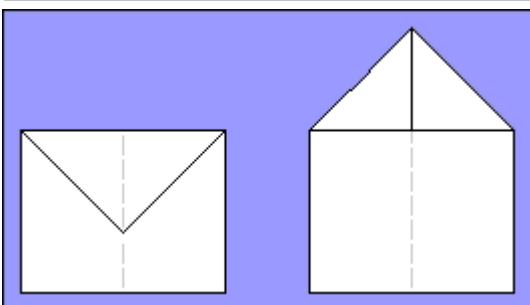

Step 2

Next fold the two upper corners in at a 45-degree angle. Be careful here to line these up, and do not let the flaps cross the middle of the paper. Use the middle fold as a guide.

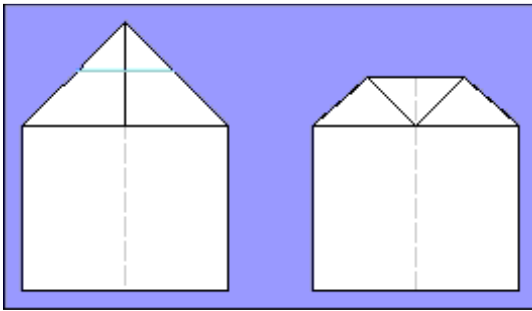

Step 3

Fold the upper point over and crease.

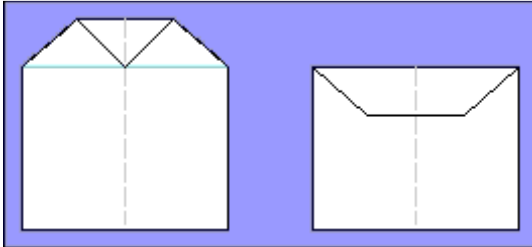

Step 4

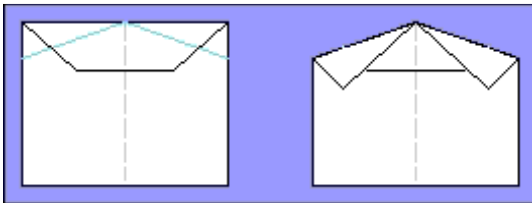

Undo Step 3. (We just need to mark the line at this time.)

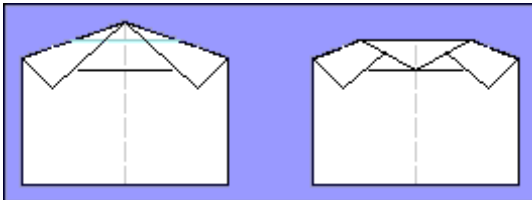

Step 5
Fold over the tip as shown.

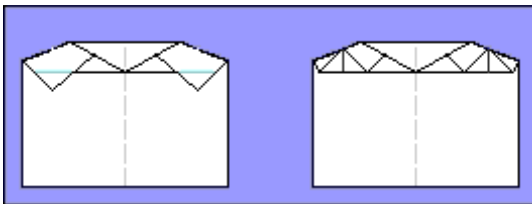

Step 6
Fold again.

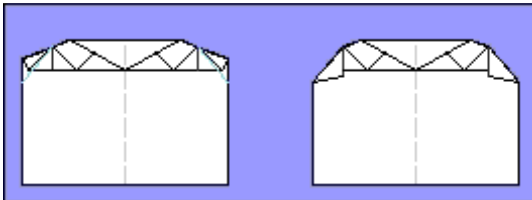

Step 7
Fold the corners over as shown.

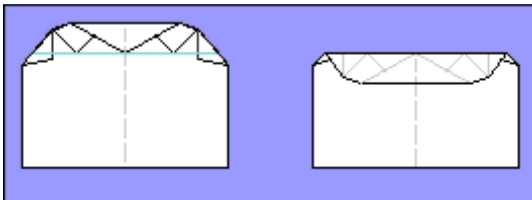

Step 8
Fold the tip over.

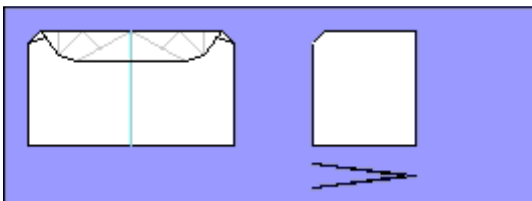

Step 9
Fold the tips up.

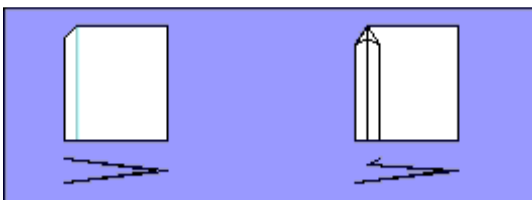

Step 10
Fold the corners over.

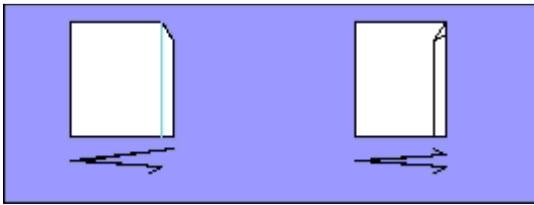

Step 11
Fold the nose over.

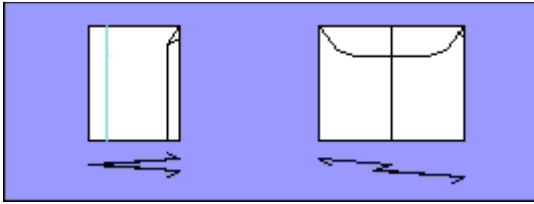

Step 12
Fold the plane in half.

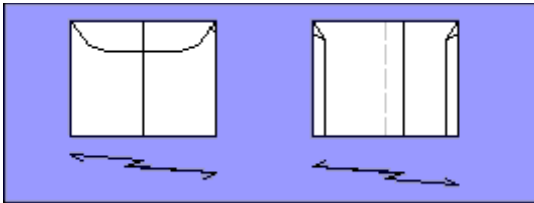

Step 13
Fold the first winglet.
The angled lines below the picture show what the plane would look like from the back.

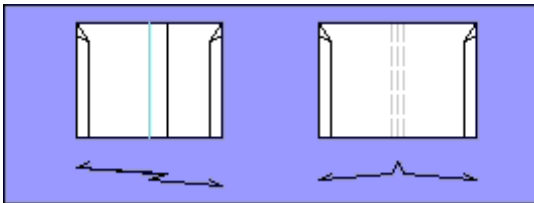

Step 14
Fold the second winglet as shown.

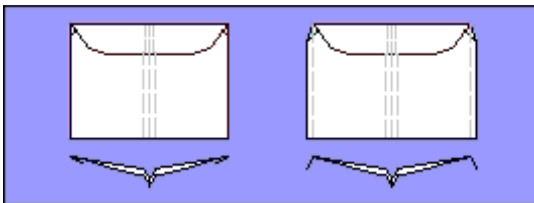

Step 15
Fold the wing over to make the first part of the body.

Step 16
Flip the plane over.

Step 17
Fold the to make the body.

Step 18
Fold out the winglets, and shape the wings as shown.
