

SAILING CLUB OF THE CHESAPEAKE – CONSIDERING MEMBERSHIP?

Founded in 1944, The Sailing Club of the Chesapeake is a little different than most clubs. All programs focus on Chesapeake sailors and are oriented towards families sailing together. Though not all members meet all criteria, someone who already has a solid sailing resume, a reputation for integrity and for providing energy to organizations, and who keeps a boat well and is passionate about the sport(s) and traditions of sailing will enjoy the Sailing Club.

Club activities include rendezvous accessible by land and water, short and longer cruises, family oriented events Club races and parties, and extended cruise trips. Generally members provide the planning and effort to carry off these events, but many hands make light work. One of the best times to get to know other members is working on one of the many committees. Much like crewing together, teammates develop closer bonds.

The single most important aspect of the Club is in fact those friendship bonds. It is the glue that holds together an association of strong-willed sailors who might not otherwise agree on a course to take. And it will last a lifetime.

To get started, members should contact the Membership Committee Chairman today to get a guest introduced to the Sailing Club!
