Purpose	Strategy	iPhone/iPad
Reduce phishing.	*Mark junk/ spam/ scam emails as 'junk' or 'spam'*	All email systems attempt to identiy spam/scams/phishing. But, in addition, you can teach it what *you* regard as suspicious mail, and doing so informs your email service. **Apple Mail**: Tap arrow/push up screen, move to "Junk." [Icon looks like a trash can with "x" on it.] **Gmail**: You can also add an email to the Spam folder yourself. Hit 3 dots, "report Spam." OR manually move into Spam folder. **Other email clients** will handle Junk/Spam in similar ways. NOTE: Check your Junk or Spam folder regularly! Sometimes mail you WANT winds up in that folder.

Reduce phishing.	*Update operating system, because OSs continually update their security features*	**iOS**:
		Open your settings:
		  General/
		  Software Update/
		  Automatic Updates/On.
		The iOS will update overnight when plugged in and on WiFi.

Reduce risks of phishing.	*On/Off*	
Reduce phishing.	*Update browsers*	**Safari** is updated when the OS is updated. **Other browsers** (like all apps) are updated automatically when you're on Wifi if you use iOS13. NOTE: Older iOS may require manual updates. From Apple: How to Update iPhone Apps in iOS 11 (for example) -Tap the App Store icon on the Home screen. -Tap the Updates button to access the Updates screen, then tap the Update button for any item you want to update. -You may be asked to confirm that you want to update, or to enter your Apple ID; after you do, tap OK to proceed.
Reduce the risks of phishing.	*Back up regularly*	**iCloud**: How to back up on iCloud -Go to Settings > [your name] > iCloud > iCloud Backup. -Turn on iCloud Backup. *Then iCloud automatically backs up your iPhone daily when iPhone is connected to power, locked, and on Wi-Fi.* OPTIONAL: To perform a manual backup, tap Back Up Now.
Reduce the risks of phishing.	*Passwords for apps*	
	ONLY IF TIME PERMITS, OR THE TOPIC COMES UP	
Reduce phishing.	*Block pop-ups*	**Safari**: Open Settings -Choose Safari. -Tap the Block Pop-ups toggle switch to turn it on or off. **Chrome**: Open the Chrome app. -Tap More Settings . -Tap Content Settings. -Tap Block Pop-ups, and turn Block Pop-ups on or off.
