- If they are part of a public health investigation
- If they live or work in high risk settings, such as skilled nursing facilities or homeless shelters
- If they are a close contact of someone with a confirmed positive diagnosis of COVID-19, or
- If they are an essential worker.

Prioritization of routine testing among other asymptomatic people is not recommended at this time. People over the age of 65 or with underlying conditions do not necessarily need to be tested unless they have symptoms, have had an exposure or have been told by public health to be tested. Once again, please check with your healthcare provider about your specific situation and let their medical advice guide you.

Testing is Available by Appointment only
