

Course Details

Community Planning for Economic Recovery **MGT-462**

Training Provider: The Trustees of Columbia University in the City of New York, National Center for Disaster Preparedness

Course Level: Management

Delivery Type(s): Mobile/Non-Resident, Residential, Conference or Symposium

Duration (in Hours): 7.0

Duration (in Days): 1.0

Course Description:

This Planning and Management Level instructor-led course consists of planning tools and resources for the community to conduct cross-sector planning for disaster recovery. The curriculum will include: tools to develop stronger partnerships between public and private sectors, evaluate community hazard assessments through the lens of economic recovery, and checklist based resources for public and private sector partners to use in a post-disaster.

Course Objectives:

At the end of this course, participants will be able to:

- Calculate estimated financial losses from major disasters and identify factors that influence a community's economic recovery
- Identify all steps of a hazard analysis pertaining to disaster economic recovery
- Formulate ways to collaborate with potential community partners for coordinating economic recovery
- Appraise cost recovery options (such as insurance and federal programs) that may be utilized to support organizational recovery from a disaster
- Revise customizable planning tools appropriate for the participants' work context
- Synthesize customizable planning tools for use within the participants' context
- Prepare an economic impact analysis as part of a post disaster economic recovery case study
- Develop ways to integrate whole community continuity of operations planning through different management techniques.

Other Prerequisites:

It is recommended, but not required, that course participants have previous experience in financial management and disaster recovery
