### FEATURED STORY

## UN: Rising Air Pollution in World's Cities Killing Millions

Almost everyone in large cities in poor and middle-income countries faces excessively high air pollution, a growing problem that is killing more

than 3 million people prematurely each year and "wreaking havoc on human health," the World Health Organization said Thursday.

### Obama's Hiroshima Trip Rekindles Decades-Old Controversies

When President Barack Obama tours Hiroshima's haunting relics of nuclear warfare, he will be making a trip that past administrations weighed and avoided. For good reason: The hollowed core of the city's A-Bomb Dome and old photos of charred children are sure to rekindle questions of guilt and penitence for World War II's gruesome brutality.

## Head of Anti-Fakes Group Closely Tied to Alibaba, Owns Stock

When an influential anti-counterfeiting group allowed Chinese e-commerce giant Alibaba to join its ranks in April, the group said it was a collaborative move that would help stem the sale of fake goods for top companies such as Apple, Nike and Procter & Gamble.

## Senate Deal Reached on Reduced Zika Funding Measure

Top Senate negotiators announced agreement Thursday on a \$1.1 billion emergency funding measure to battle the Zika virus. That's less than President Barack Obama's \$1.9 billion request, which has upset some senior Democrats.
