

North Star Village Annual Update

An Amazing “Place” Creating Opportunities as We Age

October 2018 through September 2019

We have completed another year continuing our purpose to provide support and social activities for those of us who are living longer. Our Village has helped us remain in our homes of choice and supported us in many different ways.

A total of 465 services were requested and only 9 were unable to be filled.

We currently have 67 members and 44 volunteers (members and non-members). 1216 attended North Star events with an average monthly attendance of 101.

North Star Village’s financial condition is excellent. We received donations from members, Villages NW grants, and fundraising events.

Our expenses include Villages NW fees insurance costs, marketing materials, office supplies and miscellaneous event fees.

As neighbors and members, we continue to get to know each other and appreciate the experience and knowledge each of us bring to our Village.

*Additional information about our Village functions is available through any of your council members.

2019-2020 Council Members:

Anjala Ehelebe, Marianne LaBarre, Mary McMurray, Kay Osgood, Tina Smith, Mary Shepherd, Nancy Stevens, Cheri Tessler, Stu Webster, Iris Wernher

We join together for dinners, lunches, sing-a-longs and a wide variety of programs planned by our [Event Committee](#) and individual members.

We recruited new members and volunteers through the [Membership Committee](#) and [Outreach Team](#).

Our [Volunteer and Driver Teams](#) make sure our volunteers are trained and prepared to provide support for us.

[Fundraising](#) subsidize membership assistance and other member activities.

Members volunteer to perform the [administrative](#) needs of our Village with birthday lists, Club Express entry, service requests, events, manuals, interviews and anything else our Village needs.

Your [Governing Council](#) works to create consistency in supporting services and social interaction, plan for continued growth and stability, and manage connectivity and compliance with Villages NW as needed.

We are beginning our third year. With our solid financial stability, our plan is to continue to build our Village Community using the current successful processes and develop new processes and programs to create more opportunities for support and growth.
