

Welcome Friends of CVL. New Years greetings from your Village as we begin our second year enhancing community connections. By helping around the home or providing assistance to attend social events, CVL volunteers help strengthen member bonds to our community. Through out the year, the number of these member services grew, paced by an expanding corps of volunteers. CVL will build on that achievement by collaborating with other local groups to expand member involvement in our diverse social milieu. This year find your place in Community Village Lawrence and help us realize 'aging in community'.
