

## HOMEOPATHY SIG

*Linking individuals*

*Disseminating information.*

*Fostering quality research in homeopathic medicine.*

### **Who we are:**

The *Homeopathy SIG* is a place for individuals seeking guidance, support, and resources in the area of homeopathic medicine research in Canada. Homeopathic medicine has a rich history of scientific endeavour and the global homeopathic research community is pursuing active research in all areas related to homeopathic medicine.

- INCAM's *Homeopathy SIG* is Canada's portal into that global community.
- *Homeopathy SIG* members are health care practitioners, researchers, industry, policy makers, funders and the patient/consumer population.

### **Our goals are to:**

- Facilitate high quality, scientific, Canadian research in homeopathic medicine
- Encourage homeopaths to develop research skills
- Provide academic and medical researchers with resources to conduct quality research in homeopathy
- Build partnerships amongst the stakeholders in homeopathic medicine research

### **The activities we engage in:**

- Publish homeopathy research related news and events via ISCMR
- Provide information and support for individuals interested in homeopathy research
- Hosts a bi-annual research forum, highlighting work in the field of homeopathic medicine research
- Creates connections with the global homeopathic research community

**JOIN the INCAM Homeopathy SIG**
