

Hello Corsair Family,

As your Commodore, I am committed to the safety and the well-being of the members of our club. I just feel the need to reach out and keep us all joined and updated as the great Corsair Family that we are.

Sadly, Mike Doell's memorial service has been canceled due to the church closing. Our Jr. Staff Commodore John Glaister will be sending an email with information on how we can honor our beloved Mike Doell and support our beautiful smiling Sandi.

The March 21st board meeting is now a Zoom Online meeting.

The Work Party scheduled for March 28th is cancelled. Our Fleet Captain, Brooke Alberts has some great ideas and have I included her ideas below:

*It appears that the first Work Party is going to have to be cancelled. We know that people have expressed an interest in going out and helping to get the Cove ready. Obviously, we want to keep everyone safe, so we are going to limit access to the Cove to 3 boats on weekends. Sign-ups will be on a first come, first served basis. Hopefully the situation will improve, and everything will be ready to go by Memorial Day. Until then, keep washing your hands and practicing safe social distancing. Meanwhile, Live Long and Prosper! \V//
Fleet Captain Brooke*

We received an email from Leslie Boutillier @ Two Harbors that Easter on the Island on April 10th-12 is cancelled.

Unfortunately, more Corsair events might be canceled but the hopeful **in me** wants to wait to predict this future! I miss our Corsair Family.

Our Corsair Wear Committee of Judy Glaister, Sue Liggan, and Margie Page have been busy planning and ordering some great items for 2020. An email will be also forthcoming. Please order!

The 2020 (Birthday T-shirts) are here at our residence in Long Beach. Anyone has ideas on how to distribute? We are very excited with the design and want you all to have them.

We will induct our new amazing prospective, we will have a Junior Meeting this year and life will get back to normal.

Lady Stone and I have some fun ideas to keep us tied together.

For now, love you all, be safe and Stay Corsair Strong! We do have the best cove ever... EMERALD BAY.

Your Corsair Commodore

Warren Stone
