Deadline for Online Submission: **February 1, 2018**

San Diego has long been called the birthplace of CA. The city is known for its mild year-round climate, beautiful beaches, military ties, and vibrant arts and culture community. San Diego is home to a very active and diverse dance ecosystem comprised of numerous dance companies and dance makers working in forms rooted in local cultural traditions. Dance education is flourishing in San Diego with courses offered in five community college districts, two state universities, and dance is also found inside a robust accredited public high school system. San Diego's dance scene also boasts community programs that add enrichment based dance instruction in the K-12 public and private classrooms. San Diego has deep artistic roots that provide the foundation for new growth in artistic creation and education by forging new pathways in the dance.

California's legacies of activism, creativity, and diversity have fostered a unique climate where progressive ideas in the arts and education can thrive. In this new era, it is essential that we as dance educators make mindful connections, deepen our knowledge, and lead with purpose in the classroom, the studio, the stage, and beyond.

Connection: In your teaching, how do you connect to your students with relevant, engaging practices that respond to differences in ability, socio-economic status, religious practices, body image, gender-identity, culture, etc.? How are you building connections with other dance programs across sectors, genres, geography, and cultures? How can we use dance as a vehicle to connect communities during shifts in economics, politics and demographics?

Knowledge: How do we expand and disseminate experiential, embodied, and scholarly research to reenvision how knowledge informed by dance can impact civic engagement, systems, and identity in a new era?

Leadership: How do we model, grow, and develop leadership that inspires innovative programming, political engagement, and local/global advocacy while advancing dance as an art form?
