

AMERICAN COLLEGE OF SURGEONS

Inspiring Quality:
Highest Standards, Better Outcomes

Administrator, Simulation-Based Surgical Education and Training

About the American College of Surgeons

The American College of Surgeons is a professional and educational organization of surgeons that was founded in 1913 to raise the standards of surgical practice and improve the quality of care for surgical patients. The College is dedicated to the ethical and competent practice of surgery. Its achievements have significantly influenced the course of scientific surgery in America and have established it as an important advocate for all surgical patients. The College has more than 80,000 members and is the largest organization of surgeons in the world. For more information, visit www.facs.org.

Summary:

This position will provide administrative support for the activities associated with simulation-based education, training and research. The support will include administrative coordination with committee activities, including in-person and physical meetings, collaborative joint projects, research grant preparation/management, new education initiatives and innovative simulation-based education program development and research.

This Exempt position will report to the Assistant Director, Simulation-Based Education and Training in the Division of Education.

Primary Responsibilities:

- Provide administrative support for committee activities with considerable independence, collaborative relationships and joint programs.
- Provide administrative support with considerable independence in developing, implementing and evaluating innovative simulation-based education programs including objective and quantitative skill assessment and learning management. Managing and processing educational and quality data for projects.
- Establish and support large databases related to simulation-based education and training.
- Monitor and document the current status and future trend of simulation technologies as well as publications and presentations regarding innovative surgical simulation and education.
