

Guidelines for resumption of member services and social activities within The Village Common

The following guidelines are consistent with the CDC guidelines and with Rhode Island guidelines as of July, 2021

Guidelines for member services.

Village members who are fully vaccinated:

- May receive Village services such as rides and in-home services from vaccinated Village volunteers without requiring that masks be worn by either party.
- May receive Village services from unvaccinated Village volunteers provided the volunteer wears a mask and maintains distance¹ from the member when together indoors.

Village members who are not fully vaccinated:

- May receive services from vaccinated Village volunteers provided the member wears a mask and maintains distance from the volunteer when together indoors.
- May receive services from an unvaccinated Village volunteer provided both the member and volunteer wear masks and maintain distance from each other when together.

Guidelines for Village Common social activities.

- Village members and volunteers who are fully vaccinated may gather in activities outdoors and indoors without wearing a mask or maintaining distance:
- Unvaccinated Village members and volunteers may participate in social activities but they should wear masks and maintain distance whether inside or outside.
