

## The Isley Brothers

First formed in the early 50's, THE ISLEY BROTHERS have achieved one of the longest, most influential and diverse careers across popular music. Over the course of nearly half a century, founding members Ronald and Ernie Isley's unbelievable history spanned massive cultural shifts which developed their sound from gritty R&B to Motown soul and pulse pounding funk. Responsible for hits such as "Twist and Shout", "Who's That Lady", and "It's Your Thing", THE ISLEY BROTHERS have had three Billboard Top 10 singles, eleven of their albums charted in the Top 40, and sixteen of their albums have received either certified gold, platinum or multiplatinum status.
