

Company History

Founded in 2010, Business Connect is a social enterprise committed to providing citizens living in the developing world with affordable and easy access to essential resources, such as water and light; to strengthen education, health, and economic growth opportunities.

Benefits

Around the world, there is a drastic need for affordable access to natural resources, whether it be water, light, or food. Business Connect has established a unique model that benefits the individuals, families, and communities in need of these essential products. Some of these benefits include:

- Improved Health
- Greater Educational Opportunities
- Increased Productivity
- Income Generation
- Increased Safety

Economic Impact

The introduction of local employment opportunities in tandem with the availability of affordable life changing technologies has a tremendous impact in people's lives and in their communities. Benefits like:

- Employment Opportunities
- Community Investment
- Individual Wealth Generation
- Economic Advancement
- Increased Labor Force

Overview

Business Connect L3C is committed to building a network of passionate and dedicated individuals whose primary focus is the successful development of a sustainable business structure that will enhance the lives of residents in the local communities they serve by providing easier access to affordable and essential resources, including:

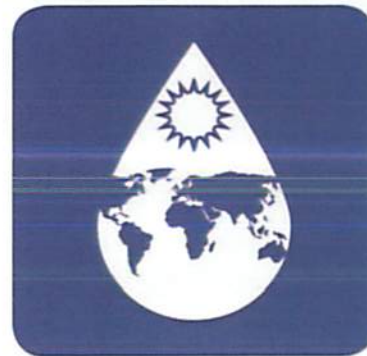

- Point of Use Water Filters
- Solar Power for Portable Energy
- Clean Cooking

Our Mission:

Business Connect is established as a low-profit Limited Liability Corporation (L3C)

We are creating a ripple effect through sustainable employment, seeking the welfare of others and the economic advancement of the developing world.
