COUNT DOWN TO A GOOD START

with Swiss Made Regatta wristwatches and timers from the worldwide specialist for water-sport timepieces: Lemania of Switzerland.

EXCLUSIVE REGATTA COUNTDOWN SYSTEM

The Timer

7-jewel Swiss pinlever movement. Rugged, brine-resistant ø 62 mm fiberglass case with non-slip rim. Water-resistant. Shock-protected.

The Watch

17-jewel Swiss selfwinding movement. Rugged, brine-resistant, shock-protected stainless steel case. Water-resistant to 330 ft/100 m. Screw-lock crown with protective shoulders. Steel bracelet or rubber strap. Black or light gray dial. Bright red second hand.

The System

10-minute color-coded visual timer actioned by pushpiece. When the first regatta starting gun sounds, the timer instantly begins measuring two successive 5-minute periods up to the actual start signal.

How it works: from 10' to starting time

At first gun, 10 minutes before start, press and release pushpiece: all five Minute Discs are blue.

With each passing minute, discs change from blue to red.

Second gun: 5 minutes elapsed, 5 minutes to go. All discs red.

Counting down to start time, red discs disappear. Shown here: 9 minutes elapsed, 1 minute to go.

Last red disc has disappeared: START!

To reset timer, press pushpiece.

For Prizes, Awards, Trophies...

Special rebates available from Lemania of Switzerland for group orders (minimum: 10 watches and/or timers) from ILCA-registered fleets and clubs.
