PRO: Bruce Bingman
Scorer: Ken Curtin

Winds on Saturday were first from the north, then the south, then east, then west, then north again, never more than 8 MPH and usually 0 - 5. It took all afternoon to get in one race on the upper course, although we had a nice spinnaker ride home under a northerly breeze.

Winds on Sunday were better, northeasterly at 7 - 9 MPH, not enough to heel the boats, but enough to move them. With a high of 82 degrees under sunny skies it was nice on the water, but hot once we got back to the marina.

The tide was outgoing for both race days.
