The Southern Districts and lightning lab with Nick Turney went off Memorial Day weekend. The lab started Friday with some sailing video and debriefing at my house. We watched the video and got some great help from Nick. The libations were flowing, and Chris Shipman, steak/short order chef, put out some delectable food.

Saturday came with light breeze sloppy conditions, and we were able to get three races off, with shifts between 25-35 degrees.

Sunday met the competitors with much of same weather as Saturday, butut less breeze, as we watched the other classes try and get one leg race off. The class called it for rum and a tow.

I would like to thank everybody who could make it and a few who could not. Please keep Steve Harris in your prayers after a bad bike accident and for Ian Edwards who lost his father and could not make it. See you guys at the next regatta.

Larry Frost
