

Bill Palleschi - Reduce Your Carbon Footprint Resources

[East Bay Community Energy Company](#) exists to provide more renewable energy at competitive rates to East Bay residents. You may have read about (EBCE) in your PG&E bill. Signing up for one of EBCE's renewal energy packages is the quickest way to shift your home to renewable energy sources.

Bay Area [SunShares](#), a program of the Business Council on Climate Change (bc3sfbay.org), is making it simpler and more affordable for Bay Area residents to install solar panel and battery storage systems. Sign up with SunShares by November 30. Three vetted solar installation companies will contact you with information about solar systems suitable for your home and no-obligation-to-buy estimates that you can compare.
