6FigCode

The following document will explain how the 6fig system enables ordinary people to make money online within 7 days, without any experience.

E.G. **\$4,912.94 In 30 Days.**

[Watch The Full Training Here](#)

Offer	Tracking Code	Unique Hops	Sales	Hop Conv.	\$/Hop	Earnings
		2146	261	12.2 %	\$2.29	\$4,912.94

Thrive	N/A	5	2	40 %	\$9.47	\$47.37
Thrive	tefu1	144	3	2.1 %	\$0.31	\$44.52

When it comes to making money online there are countless ways to do it, and there are countless courses, systems, software etc, etc which promise to give you the answer... but as I'm sure you know; seldom do.

Most methods, systems and software fail to deliver results because they don't include everything, and, or leave some elements to the user's own devices, imagination.

And let's not forget skill level, or lack of.

Without all of the elements required, and without a certain level of skill **most people will fail...** that is a fact which this system solves.

In this document I'll explain how this system works and why it will work for you... *if you apply it.*

The 6FigCode System

The 6fig system works on several levels at the same time to ensure short term and long term profit potential:

1. The system starts by building a list of potential buyers (an email list)
2. At the same time 6figcode generates what we refer to as 'Initial Sales' *automatically (all products pay the user 90% commission)
*once set up
3. Following Initial sales the system is configured to run multiple mini campaigns on *autopilot one after the other to generate more sales, (again all products pay the user 90% commission) .
once set up
4. Lastly the 6fig system also sells a higher price point product on the users behalf, also on *autopilot (priced at \$197 - \$997) which pays 50% commission
once set up

And the clever part: 6figcode is designed, and configured to generate results within 7 days, and requires no skill or prior experience to achieve those results. ***But it's... Not for Everyone.***

While this system might be clever, proven to work for anyone who implements it, and 100% genuine... it is NOT 'Push Button'.

It's NOT a Push Button software and it's not one of those get rich quick things either...

So while most of the system is delivered to the user in ready-made format (done-for-you) it still requires a little editing to make it unique to the user. And of course the user still needs to activate the system... *which to summarize means - **there is a little work to do.***

So let me ask you:

If I gave you a complete 'proven and guaranteed' to get results system, full step-by-step training covering every single element, right down to the tiniest basic step, and then created every part of the system ready for you to use: ***Would you use it?***

- **Would you watch the training?**
- **Would Implement the system I show you?**

Right now, you're probably thinking to yourself... ***Hell, Yes I would.*** But the reality is; *80% or more of everyone who reads this document will not be prepared to do the little work required, regardless of how badly they want to, or need to make money online. ***Only *20% will bother to take action and enjoy the results.***

*(Ref: The 80/20 principle)

It's a sad fact, but most people are just too lazy to help themselves... So my question is; which category do you fit into... 80 or 20?

If the idea of doing a little work to create a consistent and evergreen second income puts you off, then unfortunately you fit into the 80 category... So **it's probably time to stop reading.**

But... If you're prepared to follow the training, use the ready made elements of the system I give you, and implement the system as instructed... then you're a 20. Which means **I can show you how to generate results within 7 days regardless of who you are.**

Still here?

Great... let's begin.

Part 1 - The products

The products - 6figcode includes multiple products which are used to create the initial project and campaign, all of which are already created for the user.

Each of these products pays the user 90% affiliate commission on all sales; this includes the front-end product (the main product) and all upsells (linked products in the funnel).

For example:

- *Product X costs: \$17*
- *Product X Upsell 1: costs \$47*
- *Product X Upsell 2: costs \$67*
- *Product X Upsell 3: costs \$67*
- *Product X Upsell 4: costs \$97*
- *Product X Upsell 5: costs \$127*

In total if a customer (one of your new subscribers) purchased the main product and all upsells they would have spent \$422 in total (Main, or Front End product and four upsells). Of that \$422 you as a 6fig user would receive 90% of that total figure - i.e. \$380 (less fees).

Amazing right... *Yes, but let's be realistic, this doesn't happen often. Very few customers go through a funnel and purchase everything, it happens, but not often. In reality the average spend per customer is \$31 - \$46 depending on the overall value of the funnel - So you could expect to receive \$28 - \$41 for every customer you send into the initial product funnel.*

Part 2 - The Promotion Doc

Part two of the system is a special document called a promotion doc. The whole system revolves around this one document.

The promotion doc is created (ready made) to provide real value to its reader but is actually a fully formatted sales tool designed to make you sales... ***It's like a sales tool in disguise.***

And each Promotion Doc is unique to you.

Each initial product has its own product specific promotion doc. They are 'ready made' (done for you), and yet they still end up being unique to the user within seconds.

Each promotion doc will have your affiliate link embedded inside.

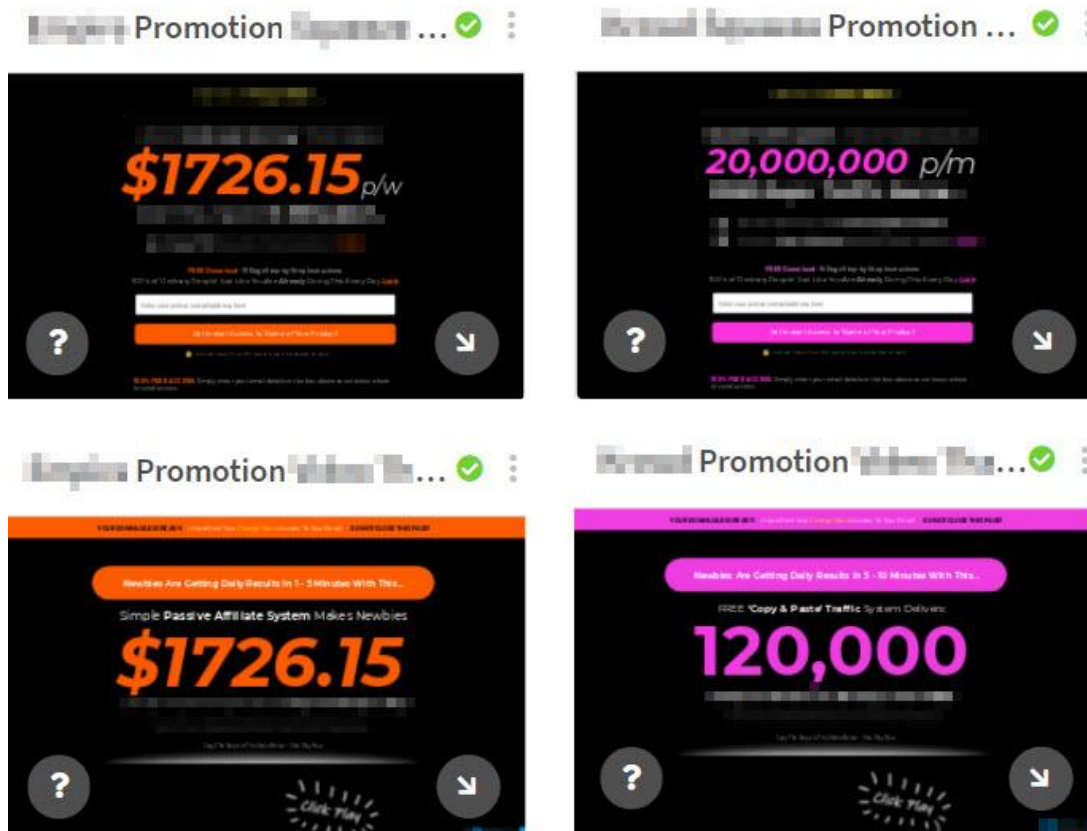

Watch the full FREE 6fig training for full details on how this works
[Click Here to watch the full FREE 6fig training](#)

Part 3 - The Pages

The pages - 6FigCode uses 2 special pages which are congruent to the promotion doc but designed to sell the initial product for you while building your email subscriber list at the same time.

Each initial product has its own pages, all of which have already been created for the user (done-for-you).

Here's 2 examples taken from 6figcode
See below

How it works

- [1] Visitor sees page #1
- [2] Visitor opts in to get access to the promotion PDF (Doc)
 - Visitor becomes your subscriber
- [3] As soon as they opt-in they are automatically taken to page #2 which is uniquely formatted to...
 - Sell the same product as pitched in the promotion doc

Page #2 is where most initial sales (from the initial product) will occur (see image below).

Offer	Tracking Code	Unique Hops	Sales	Hop Conv.	\$/Hop	Earnings
	 ltyp	1430	165	11.5 %	\$2.41	\$3,444.04
	 lpdf	174	50	28.7 %	\$3.97	\$691.07
	 lwe	267	16	6 %	\$1.16	\$309.17
	 fu2	29	6	20.7 %	\$6.43	\$186.49

The outlined figures in the image above originate solely from Page #2 in this campaign.

Sales in this example totals **165 sales** and \$3,444.04 **affiliate commission**, that's how much the user/affiliate generated from just page #2.

**As a 6fig user you would be an affiliate... [Full details here.](#)*

What If they don't buy from Page #2?

Not everyone will buy the initial product from page #2, so here's what happens when they don't.

1. The Promotion Doc.

Some people will want to check out the method you hinted at on page #1, so they'll go over to their email folder, look for your email, open it, click the link and start reading the PDF.

When cold leads (new subscribers) go through this short process something very subtle and clever happens... ***This is fully explained in the full FREE 6fig training***

[Click Here to watch the full FREE 6fig training](#)

2. Initial Campaign.

The 6fig system revolves around the promotion doc, which is essentially a sales tool in disguise, designed to sell the initial product.

Now let's say they opted in, but they didn't buy from page #2, and they didn't open, or read the promotion doc.

When that happens, the initial (ready made) campaign starts working automatically.

The initial campaign is specially formatted to:

1. Remain congruent to the promotion doc (the reason they opted in).
2. Sell the initial product

Without giving too much away here, the initial campaign contains unique links which do two things... both of which are configured to generate more sales for the user.

3. The Mini Campaigns.

At this point there are two possible scenarios or outcomes using the 6fig system...

1. The subscriber has purchased the initial product - which means; you as the 6fig user made money (affiliate commission).
2. They didn't purchase the initial product - and you (the 6fig user) didn't make money.

It's important to note that not every initial product will resonate with every prospect (the people who see it).

For most systems this is basically the end of potential, but with 6fig the initial product is... just the initial step. It's like the first foot in the door, it's simply the beginning of a system which carries on working for you *automatically.

*(Once set up / you only need to set it up once)

So they didn't buy the initial product... What happens now?

Well now they enter the mini campaign phase.

Mini campaigns are also all done for the user and ready to use inside of 6figcode.

Right now there are 10+ ready made campaigns all targeting different products all of which pay the 6fig user *90% commission on everything. And like I mentioned above, this all happens automatically (once set up).

*(any and all resulting sales from main product and all / any upsell products)

4. The Big Ticket.

Next come the big ticket campaigns...

Like the mini campaigns these campaigns are already created for the 6fig user and also work on *autopilot...

*(Once set up / you only need to set it up once)

The big difference with the Big Ticket campaign compared to the mini campaigns is... The Price!

Big ticket essentially means; big price tag!

The price range is \$197 to \$997 and 6fig users receive 50% of the selling price as affiliate commission.

Fully explained in the full FREE 6fig training

[Click Here to watch the full FREE 6fig training](#)

5. The Next Step.

Yes there is more, lots more... 6figcode is designed to get prospects through the door and generate results within 7 days, and then keep selling to them *without the user needing to do anything else.

*(Once set up / you only need to set it up once)

Now let me quickly show you how the system flows once set up.

The 6fig System Flow...

You only need to set it up once

The following serves to explain the flow of the system in a simplified manner, [Please watch the 'Full 6Fig Training' for the complete system..](#)

#1

Filtered Traffic / 40% Sales

Step #1: 6figcode uses filtered traffic with a proven sales percentage of 40% minimum. The traffic will start visiting page #1 in *1-3 days.

* Occasionally it may take upto 7 days

Traffic is sent to page #1 →→

#2

Page #1

All pages are provided as Done-For-You assets

The job of page #1 is to convince visitors to join your list... in order to get full access to your promotion doc.

Subscribers are added to your list and instantly receive the promotion doc. They are automatically sent to page #2 →→

#3

Promotion doc

The promotion docs are value driven, subtle sales pitches.
All promotion docs are provided as Done-For-You assets.

The promotion docs are value driven, subtle sales pitches.

They provide value, as ___ [See full 6fig Training](#) ___, and then morph into a subtle sales pitch.

The way the promotion doc is delivered is crucial

The reasons for this are as follows:

No distractions on page #2.

Ethically forces a number of micro commitments which can make the subscriber more likely to read the PDF and purchase.

[For Done For You Promotion Docs: See Full 6fig Training](#)

Some subscribers will access, and read the promotion doc, and some readers will purchase through the pitch and your affiliate link embedded inside your doc →→

#4

Page #2

All pages are provided as Done-For-You assets

After joining your list the subscriber is sent straight to page #2 automatically. Page #2 is constructed and formatted to generate as many initial sales as possible.

The main purpose of page #2 is to sell without distraction →

Around **70% of all initial sales** are derived from page #2

Offer	Tracking Code	Unique Hops	Sales	Hop Conv.	\$/Hop	Earnings
	 ltyp	1430	165	11.5 %	\$2.41	\$3,444.04
	 lpdf	174	50	28.7 %	\$3.97	\$691.07
	 lwe	267	16	6 %	\$1.16	\$309.17
	 fu2	29	6	20.7 %	\$6.43	\$186.49

#5

Initial campaign

All campaigns are provided as Done-For-You assets

The initial campaign is triggered as soon as a prospect joins the list and geared towards selling the initial product through the 6fig users affiliate link - to make the user more sales / affiliate commission →→

#6

Mini campaigns

All mini campaigns are provided as Done-For-You assets

Mini campaigns are product specific and pay 6fig users 90% commission on everything

Mini campaigns work in the background on autopilot once set up to make more affiliate commissions. I.e. once someone subscribes they will receive automated campaigns promoting multiple products in sequence →→

#6

Big Ticket Campaigns

All Big Ticket campaigns are provided as Done-For-You assets

Big Ticket campaigns pay you 50% commission on \$197 - \$997

Big Ticket campaigns like the mini campaigns are designed to slot into your overall campaign and aimed at pitching and selling a high ticket product.

Price range: \$197 - \$997

6fig users receive **\$98.50 - \$498.50** per sale (less fees).

Example:

- *Initial run - 250 visitors*
- *Opt-ins (subscribers) - 93 (based on 37% opt-in)*
- *Initial FE sales (Main Product) - 9*
- *Plus upsell purchases making the total value per customer an average: \$31.00*
- *So 9 customers each spend \$31 on average.*
- *$9 \times 31 = \mathbf{\$279}$*

Initial results / sales means within the traffic period, I.e. the 250 visitors won't all arrive at the same time, instead they will arrive over 1 - 3 days.

After the initial results we can expect more sales as a result of the automated mini campaigns for the other products, as well as the big ticket campaigns.

So...

Over the next 7 -10 days

- 4 more sales at an average \$31 per customer = **\$124**
- 1 Big Ticket Sale = ***\$348.50**

**\$348.50 is based on the price being \$697*

Results (including initial and 10 day)

- Initial - \$121
- 10 day - \$472.50
- **Total - \$593.50**

Note: these figures are examples based on my own experience and using all of the elements inside 6figcode. Results vary on each run, you could make less than example figures, and you could make a lot more. Big ticket commission is based on 50% of \$697, depending on when you read this document the price may be lower or higher.

#6

Multiply your results

The 6fig process works on virtual autopilot once set up, so all you have to do is....

[**Watch the FREE 6figcode training - for full details**](#)

Optional Step

Repurposing

[**Watch the FREE 6figcode training - for full details**](#)

This additional / optional step can make you more from the same list
→→

Summary

The system is designed, tested and proven to work with the products and ready made (DFY) assets included inside 6figcode. It's a system designed for ordinary people who want to, or perhaps need to make money online, and it works for anyone.

- *You don't need any prior internet skills to implement 6figcode*
- *You don't need any experience to get results with 6figcode*
- *But you DO need to watch the training, use the ready made (DFY) assets and do what I show you...*

Can you genuinely do that?

Simple, yet powerful...

Although on the face of it the 6fig process looks simple (*and it is with 6figcode*) it is the little (not so obvious) details that make it work!

This document should have given you enough information about 6figcode, and how it works for you to:

- [Watch the Full FREE 6fig Training](#)
- Or Not Watch the Full 6fig Training

If I haven't inspired you, or you simply don't like the system, no problem... Like I said near the beginning, the 6fig system isn't for everyone... and it's NOT Push Button (*we all no push button income is complete B'S anyway*).

Either way...

I hope this document, the descriptions and details have helped you understand the system to a certain extent?

And hopefully you also understand the potential the system offers anyone who uses it?

If the 6figcode system sounds at all interesting to you I recommend watching **the full FREE 6fig training:**

[**Click Here to Watch**](#)

Just in case you were wondering...

This is a system I use personally. I use it in exactly the same manner as I've outlined in this document, and which I explain in the tiniest detail inside 6figcode.

I.e.

- *I don't use any of my existing lists / subscribers.*
- *I use the same pages (included in 6figcode).*
- *I use the same campaigns (included in 6figcode).*
- *And I use exactly the same traffic source (included in 6figcode).*

6fig code is a totally 'From Scratch' system... It doesn't matter who you are; if you implement the system as instructed - you will get results!

Mark Bishop

P.S. Reminder; this document is meant only as a flow / breakdown of the system. In order for the system to work for you as it does for me you must implement the whole system as detailed inside 6figcode.
