

Entry Checklist

Have you got a wristband for each person that is coming with you to the show?

The rider gets theirs for free and can have one Rider Support wristband at a reduced price. You need to select Wristbands Extra for each additional person.

Have you paid for a Wristband Upgrade for each person staying overnight?

You must include the rider as they do not get to stay overnight for free. Remember people under 18 may not stay on the grounds without a parent or guardian staying with them. Overnight fees cannot be transferred between different people on different days. You need to have wristband paid for each camper.

Have you booked either Day Parking or an Overnight Site?

You cannot bring a vehicle onto the grounds without either a Day Parking Pass or an Overnight Site Pass. If you are leaving your float/truck on the grounds overnight and staying somewhere else, you will still need an overnight site. An overnight site can take a truck or car and float, plus an additional car or small tent. If you have more than this, then you will need to book additional overnight sites.

Have you booked Open Yards for the event?

All horses staying overnight on the grounds need an open yard to be booked. You can also book an open yard if your horse is just there for the day, and you want it in a yard.

Would you like to have covered yards or stables at the event? Have you requested an Upgrade?

You can request an upgrade and might be lucky enough to get one. People receiving upgrades will be notified in the few weeks before the show and asked to pay the additional fees.

Have you paid your yarding bond?

For each yard you need to pay the yarding bond. The number of bonds paid should match the number of open yards booked.
