

Oliver Road Queenstown Showjumping Classic

Health and Safety Policy

Queenstown Show Jumping is committed to the protection of its volunteers, officials, riders, trade operators and any other visitor from accidental injury.

Queenstown Show Jumping is responsible and accountable for all organizational systems, including all aspects of health and safety:

- Ensure compliance with all applicable legalisation, regulations, codes of practice and safe operating procedures.
- To strive to improve the safety at competitions while recognizing it is a high-risk sport.
- Ensure that safety systems, procedures and documents are established, reviewed periodically and monitored for effectiveness in accordance with Equestrian Sports New Zealand .
- Provide accurate reporting and recording of all accidents, incidents and near misses.
- Conduct annual reviews of the health & safety policy & procedures
- Appoint a health & safety person who is supported by with remaining members on the committee.
- Mitigate risks to horses, competitors and spectators as far as is reasonably practicable.
- Ensure there is a crisis management plan in place, this is a separate document for the committee and official to refer too.

All volunteers, riders & others have individual responsibility for health and safety and will:

- Promote health and safety and maintain a safe event, safe equipment and courteous communication.
- Always establish, adopt & follow safe methods and safe practices.
- Conduce themselves in a manner that is in accordance with Equestrian Sports New Zealand Wellbeing and Safety plan, Coach Health and Safety and their General Regulations.
- Help competitors and visitors to understand the right safety procedures and why they exist.
- Ensuring all accidents and incidents are reported to a committee member or an official.
- Informing the office immediately of any health and safety concerns.

COMPETITORS / RIDERS will be always responsible for themselves by observing safe practices and rules/instructions relating to their competition.

Date: 22.11.2025

Risk management Plan:

The outline of the Risk Management Plan:

1. Identify the key aspects of the event.

The Queenstown show jumping event is held annually, it attracts approximately 500 people and 200 horses.

2. Who is involved or impacted by the event?
 - Competitors
 - Spectators, officials, media personnel and public
 - Sponsors and horse owners
 - Local community and authority
 - Venue/landowner
 - ESNZ
3. Contact details of Health and Safety Officer (who must be fully briefed) for event and others involved in health and safety (e.g., medical officials, crisis team manager). Establish an emergency assembly point at initial crisis management team meeting – At the EVO Tent.
4. A system whereby competitors are aware of the Health and Safety rules around the event (see: ESNZ/Safety/Waiver template for entry forms).
5. Event Programme to include
 - The “Disclaimer of Liability” (ESNZ GenRegs Art 136).
 - **All riders who have a fall must be checked by medical staff on grounds before they are permitted to compete further during the competition**
 - Health & safety information
 - To give the contact details of the person to whom any Health and Safety issues should be given: ESNZ/Safety/Health & Safety

- areas suitable for spectators in wheelchairs, mobility scooters, and with pram/pushchairs
 - risks associated with the venue, the presence of horses, water hazards, other users, terrain etc.
 - advise public to keep out of truck park areas, yards, stables, and areas where horses are unattended.
 - Advice all about hand washing & sunburn risks.
 - Queenstown Show Jumping has zero tolerance to bullying or harassment.
 - Ensure not horse areas are clearly mark out.
 - Ensure that no riders, officials, or volunteers are impaired by the influence of drugs or alcohol.
6. The entry system needs to include a tick box that riders use to indicate that they acknowledge the risks in their sport, and that they will maintain safe practices throughout the event and not cause harm to others.
 7. Emergency contact details for all competitors (on entry form).
 8. Minutes of health and safety meetings recorded.
 9. Briefing all officials on health and safety instructions including evacuation procedures, incident, and accident reporting, and what to do in the event of a serious accident or event
 10. Check that officials do not introduce any additional risk by their actions.
 11. Ensure all tests are of the appropriate level, and that all jumping courses are designed by qualified Course Designers, and meet the required standard.
 12. Ensure the correct level of medical care is available at events.
(GenRegs Art152).
 13. Are the officials aware of the tasks they are required to do.
 14. Ensure that no riders, officials, or volunteers are impaired by the influence of drugs or alcohol.
 15. Are all the officials being financial members of ESNZ and are currently qualified for their role and ensure all officials are on the current ESNZ Officials List (ESNZ/Resources/ Officials). Checked by H&S officer prior to the event.

16. Is there any special protective equipment required for any official or volunteer?
17. Are there adequate and enough toilets?
18. Put in place signs/install roped-off areas to exclude public or restrict entry to any high-risk areas.
19. Ensure that the Health and Safety officer for the event fills in the on-line incident register on the ESNZ website.
20. Have the forms available on which to note any accidents/incidents/near misses.
21. Ensure any contractors complete a site-specific health and safety induction.
22. Have a policy of zero tolerance to bullying or harassment.
23. **All riders who have a fall must be checked by medical staff on grounds before they are permitted to compete further during the competition.**
24. Encourage judges and stewards to feedback to Technical Delegates if they have any concerns about a rider's ability to participate in the competition (e.g. at a Show Jumping competition, the riders are observed by stewards during warm up, Judges during the jumping competition, and the technical delegates, all of whom may alert the OC to any concerns), Remind all officials they have the ability to prevent a rider from continuing depending on the circumstances of the fall and any perceived risk to the rider if they continue.

Monitor and Review

The Risk Management Plan should be continually reviewed, especially if there are changes in any aspect of the event that may impact on the risks.

1. Update documentation or any aspect of the RMP as required
2. Review incidents – make sure all information is being captured
3. Review any incident from an unexpected cause and develop ways to prevent/respond to this in the future

4. Gather as much information as possible from officials, competitors, volunteers.

Follow up after the event.

1. Survey the riders, officials, volunteers.
2. Ask for and obtain written reports from e.g., POG and TD.
3. Consider any other feedback.
4. Write a report with recommendations for future events.

Emergency Procedure

Incapacitated Horse/Pony

Should a horse or pony become incapacitated anywhere on the grounds the following steps are to occur.

1. A call to H&S Officer on Channel 8 to inform what has happened H&S Officer to inform P.O.G via cell phone and steward via channel 8
2. A call via the announcer Channel 8 requesting veterinary assistance
3. If no vet on grounds a call to Office Chanel 8 requesting the on-call vet be called.
4. Screens will be situated under the Ring 1 Judges box.
5. If in the rings Judges are to take control, clear the area of non-essential people and await assistance, clear area outside arena if horse is incapacitated.
6. If in the Warm Up, Stewards are to take control, clean the area of non-essential people and delegate someone to go and collect the screens.
7. Always remain calm and professional.
8. Competition will be suspended until the incapacitated horse/pony has been removed.
9. Note the time of incident and a brief on incident sheet and when the judge has a break, please ensure they go to the office and complete necessary paperwork.

Injuries or incapacitation of a person anywhere on the grounds

Should a person be injured or incapacitated take the following steps

1. Check and reassure person if applicable
2. Call for First Aid assistance on Channel 8 be exact with where you are and state if patient is conscious.
3. Keep person calm and do not move until qualified assistance has arrived.
4. The ring Judge will take control of the situation and request that any non-essential persons are clear of the area.

5. Ensure that the area/ gate way is clear in readiness for emergency services if applicable
6. Complete Incident sheet the time who and brief details be available for in depth report if needed
7. Inform H&S officer via channel 8 of the incident. H&S Officer to inform Steward and P.O.G
8. When the judge has a break, they are to report to the office to complete further necessary paperwork.

Evacuation Procedure

Event & Emergency Co-Ordinator: See Crisis Management Document

Horse & Rider Safety Co-Ordinator: See Crisis Management Document

H&S Officer: Kate Moran

Public and VIP, Officials and Caterer Safety Co-Ordinator: will be appointed

St John will be onsite as from 7:00am, First aid to cover prior to 7am

Safety Briefing held each morning of the competition with the Crisis Management Team appointed for the Show.

In the event of fire dial 111 immediately request fire service

Ensure Entrance to the area via Main Gates is kept clear for emergency vehicles

Evacuation Procedures:

Event will cease immediately No Vehicles to be moved until directed

1. Event announcer will make the call via public announcement for competitors to cease competitions and all riding. Riders will be either directed to return to their floats and trucks load and be ready to leave as directed.
2. **If all emergency exits are compromised** all horses and riders to assemble unmounted in the main arena and await instructions. All stallions with the required 2 handlers are to assemble Arrowtown End of the Yarding.
3. **Emergency exits** are on the map below
4. Spectators and VIP visitors, Catering Staff and Event Officials will be asked Outside the VIP Tent and Await directions.
5. Should the Queenstown Polo Grounds be under threat we will be guided and under control of emergency services namely Fire & Police.
6. Irrigation to be readied in case it is required to keep all safe, by the groundkeeper.

Communication

Event Coordinator and H&S Officer will have communication by way of cell phone.

The public will be addressed via the Public announcing system

Queenstow Showjumping Malaghans Road Emergency Gates- refer to emergency plan

Queenstown Showjumping Facility Map – Need to

All riders who have a fall must be checked by medical staff on grounds before they are permitted to compete further during the competition.

Hazard/Risk Register – Event

Hazard	Risk	Risk Score	Type of Control	Hazard Controls	Risk Score With controls	Review Date	Review Date
Rabbit Holes	Horse falling in hole, breaking injuring themselves and rider. Members of the public injuring themselves.	Extreme	Management Prior to the show.	Identify a time for the holes to be maps. Organize for the Pony Club to behind filling in these holes. In the month of December, monthly check of the grounds.		2 Jan	
Alcohol	Drunk and Disorderly spectators.	High		The licensed trade sites have agreed to abide by the alcohol regulations and take responsibility for the patrons on their sites. Queenstown Show Jumping will request the removal of nuisance and intoxicated persons. Security personnel in place.		On Going

Stallions	Behaviour	H	M	All stallions to be Identified Red Stallion Badge all stallions to have appropriate yarding/Stabling. All stallions to have in attendance a handler as per ESNZ rules and regulations. Stallion riders to be vigilant always and to advise other riders as need be.	Committee

1. To be used in conjunction with the NEC Christchurch H&S Plan (Aug 2020)

Event/Activity: Queenstown Show Jumping

Place/Date: 3rd and 4th of January 2025

CRISIS MANAGEMENT PLAN

Crisis Management Procedure

Requirements and Procedure in the event of a rider fatality or serious injury to rider or horse

1. Crisis Team Manager (CTM) to take charge.
2. CTM to proceed to the fence and assess the situation. Information is to be phoned in immediately to ESNZ if a rider fatality.
3. Crisis Management Team to be activated by CTM.

NB it is essential that only the Crisis Management Team is aware of the seriousness at this stage, especially if fatal. Cell phone communication is preferable.

Crisis Management Team Member	Name	Number
Crisis Team Manager (CTM)	Kate Moran	0275136047
Show Director or Event Convenor (EC)	Jan Hunt	021399258
President of the Ground Jury (PGJ)	Malcolm McKee	0274353095
Chief Medical Officer or First Aid (FA)	Kirsty Green Engage Safety – Call first	Kirsty 02102779454 0274423682
Vet/ Horse Ambulance (VT)	Remarkable Vets	034421411
Event Secretary (ES)	Vicky Lawson	021684858
Technical Delegate (TD)	Mark Wheelan	
Family Support Person (FS)	Kirsty Green	02102779454
Police Liaison (POL)	Kate Moran	0275136047

The Secretary's office will be used as the Administration Centre for the Crisis Management Team. Secretary to remain here until the completion of the management of the accident.

IN-CONFIDENCE

ACTION TO BE TAKEN AT ACCIDENT SITE

1. Screens around the accident while treatment of rider or horse is taking place – available from Secretary's Office (blankets to be used if screens not available)
2. Remove public from area and prevent them from photographing or publishing the incident.
3. Police to be notified by Crisis Team Manager if serious injury or fatality to a rider.
4. CTM to liaise with the medical & veterinary personnel on how best to respond.
5. Things to consider:
 - a. If the event should be continued or be cancelled
 - b. The event should continue and, in the case of an accident at a fence/obstacle, the fence/obstacle should be removed from the competition
6. The fence/obstacle must not be repaired or altered in any way until examined by police in the case of a serious injury or fatality.
7. Photographs should be taken before any repairs are made.

ROLES OF TEAM MANAGEMENT PERSONNEL IN CASE OF SERIOUS RIDER INJURY OR DEATH:

1. CTM & EC along with assistants to ensure that procedure is followed correctly.
2. Chief Executive of ESNZ to be notified immediately. CE is the only person to make any media statements.
3. Family Liaison is to ensure that family member's needs are taken care of. Also to go to hospital, providing transport for family as necessary.
4. First Aid on site to control treatment of rider, handing over to Emergency Services or Hospital as necessary.
5. Secretary to provide rider information such as contact phone numbers, next of kin, liaising with rider support personnel. Clearly the next of kin must be notified by Police before any official information is released. Also to provide a private area for family members and Crisis Team Members with tea and coffee available.
6. PGJ to ensure that course/fence is repaired if necessary, and to control the course in terms of stopped classes etc. Decide if obstacle is to be deleted from course or not.
7. PGJ to arrange for replacement officials if required.
8. PRESS: A holding press statement will be prepared swiftly: *"We can confirm there was a serious accident today at Queenstown Show Jumping. An investigation is underway, and we will advise you as soon as we can on the details of the incident. All further inquiries should be made to [ESNZ or the Police]"*
9. This statement to be issued at the discretion of the ESNZ Chief Exec, and their authorisation given to the CTM.

Indication of the severity of the accident should only be released on official authorisation of the police and the CTM – next of kin must be given every consideration. This applies to all persons involved with the accident, and they should be briefed to this effect by the CTM.

OTHER POINTS TO BE TAKEN INTO ACCOUNT:

1. EC to be responsible for communication between hospital/police/vet and Crisis Management Team –chiefly the TD and assistants.
2. There must be a clamp-down on any unofficial information being given out. Announcements to this effect to be drafted by the EC and given to announcers. *"We are dealing with an accident that has necessitated disruption/pause of the show/classes in Ring (x), and while we understand that everyone will be concerned, however we request that our management team*

is given time and space to deal with this accident, and that in order that incorrect information isn't circulating can everyone please refrain from discussing this for now, with any people here or offsite, as we want to make sure you all have the correct information as soon as possible."

3. Affected officials to be replaced and taken to Secretary's office where they will be required to write separate statements. If there are experienced equestrian people who witnessed the accident they could also be asked to write statements.

Accident Report Form

The following is a flow chart designed to assist Organising Committees with their Health and Safety planning (developed by ESNZ Board member Melissa da Souza-Correa).

Organising Committee Health and Safety Overview Plan

Extra Forms / Signs that may be helpful

Signage for Equestrian Competition Venues

As part of their Health and Safety planning, it is incumbent on Organising Committees to warn all people entering the grounds of the potential hazards. Clearly some hazards will be specific to certain venues, but there are others that will apply to all. As a starting point, listed below are 2 examples of signage indicating identified risks/instructions that could be included in signage.

STOP: YOU ARE ENTERING AN EQUESTRIAN EVENT WITH HAZARDS PRESENT

- Please adhere to this and all other notices at this venue.
- Always keep a safe distance from horses (danger from kicking, biting, knocked over)
- Be aware that there may be loose horses
- Children must be supervised and restrained as appropriate
- Public are not to enter the truck park
- Follow instructions of all officials
- Be aware of water and other natural hazards
- Keep behind barriers
- Be aware of tent pegs and cords in trade areas and around tents
- For assistance with prams and wheelchairs, please go to the office
- Neither the owners of this venue nor the organisers of the event accept liability for the persons, animals or vehicles under any circumstances.

Or

! WARNING: EQUESTRIAN EVENT/COMPETITION Multiple Hazard Area – Proceed with Care

This event is run under ESNZ Show Jumping Rules

- Please adhere to this and all other notices at this venue
- Follow instructions of all Officials and Event Committee
- Children must be supervised and restrained as appropriate
- All photographers to report to Secretaries Office
- Be aware of water and other natural hazards
- Keep a safe distance from horses and be aware there may be loose horses
- Keep behind tape and barriers where they are erected

- A Risk management Plan is available at the office
