Mid-Morning BBQ · Fundraiser

Fuel up between sessions! We will be firing up the BBQ mid-morning — all are welcome. Every dollar raised over our winter series goes directly into two exciting developments for our club:

New Yards Expanded yards to better accommodate competitors and their horses at all our events.	3★ Course Development Developing our cross-country course to full three-star standard — the next step for our region.
--	---

Your support on the day makes a real difference — thank you! 🙌

We are committed to developing a world-class 3★ cross-country course at Queen Elizabeth Park — and we are equally committed to doing it right. That means working openly and collaboratively with Greater Wellington Regional Council (GWRC) at every step, ensuring they are comfortable and confident in our approach before any build is undertaken.

1	27 May 2026	Campbell Draper consults on the new 3★ course design at QEP Funded by Eventing Wellington, supported by Clive Long. This consultation establishes the design vision and technical requirements for a course that works for the park, the environment and the sport.
2	Mid-June 2026	Present the proposal to Greater Wellington Regional Council to confirm viability GWRC must be comfortable and confident that the approach works for the park before any build is undertaken. This is a genuine partnership — not a formality — to ensure the project is right for everyone.
Subject to approval Build		Course construction commences — subject to GWRC approval Every dollar raised through our winter training day series goes directly toward making this happen. Your entry fees, BBQ purchases and support at each event are building something lasting for eventing in this region.

All riders must sign an Acknowledgement of Risk & Code of Conduct form at check-in
No ESNZ membership required.
Approved helmet, body protector & mandatory
