DUNSTAN MAXIM LOW-GI

I was struggling to keep the weight on my thoroughbred gelding without him getting 'hot'... however, he has thrived on

Dunstan Maxim-Low GI. His change in attitude and weight gain has been fantastic. I was delighted when he achieved the top score for Dressage at the 2013 National Young Event Horse Championships.

I have since moved all my thoroughbred event horses to Dunstan Maxim Low-GI and am really pleased with the results.

Kate Wood, Event Rider
